GoodHome

GoodHome coloured paint

We believe a comfortable home is one built around your personal preferences, and at the same time respecting the character of the house itself.

We've got over 80 colours in our coloured paint range. They've all been carefully selected and developed by our team of style experts so there's something for everyone.

We've made sure our paints will last no matter what room of the house they're in. So our kitchen paints are grease resistant, and our bathroom paints mould and moisture resistant. Our walls & ceilings durable paints are washable and hard-wearing. Perfect for busy areas that need protection against spills, scuffs and sticky little fingers.

We care about you, and the environment. That's why the whole range is water-based and low odour. Not only is it kinder to you, it's also a breeze when it comes to cleaning up, as the paint washes off with water.

the right product for the right room

All 80 colours are available in a matt finish in our walls and ceilings and durable formulations, and also in silk in our walls and ceilings formulation.

- A matt finish is smooth and flat, helping to hide minor imperfections
- A silk finish has a subtle mid-sheen that will reflect some light, ideal for darker rooms

All colours are available in a tester and 2.5L and a selection of colours are also available in 5L

GoodHome walls & ceilings
– matt and silk
ideal for use in living rooms and bedrooms

GoodHome walls & ceilings durable
– matt
ideal for use in hallways and kids' rooms

kitchen paint

We have carefully selected key colours from our walls & ceilings palette that complement kitchens. Ideal for rooms prone to grease and stains, our kitchen paint comes in a matt finish to hide minor imperfections.

bathroom paint

We have carefully selected key colours from our walls & ceilings palette that complement bathrooms. Ideal for rooms with high humidity, our bathroom paint comes in a soft sheen finish for easy cleaning.

how to complete your paint project

Test your colour

When you've chosen a colour, paint out a tester pot onto A4 paper to see how the colour works in your space. Move it around on each wall and look at it at different times of the day to see how the colour is affected by the light.

Prepare

Tools you'll need:

- Sugar soap
- Dust sheets
- Masking tape
- Interior filler
- Filling knife
- Sand paper

1
Cover nearby furniture and surfaces

2
Clean the walls

3
Fill any holes and cracks and use masking tape to protect adjoining surfaces

4
Use a primer on stained or new surfaces

5
You're ready to paint

Paint

Tools you'll need:

- Paint brushes
- Paint roller
- Paint trays

1
Begin by cutting in around the edges of the room

2
Work out from the edges using the 'W' technique

3
Brush where you can't roll

4
Paint your skirting boards last

Finish

Tools you'll need:

- Dust pan and brush
- Paper roll

1
Ensure you leave the correct drying time between coats to achieve the best colour

2
Reseal any remaining paint cans and store according to instructions. **Do not empty down the drain**

3
If water-based paints are used, clean brushes with soapy water
