From natural rattan textures to contemporary metal styles, you can find the furniture that fits with the rest of your décor, helping you extend your signature look into your outdoor space. In this setup, the Lucala high bar table, stools and scoop chair match the warm green tones of the living room, creating a seamless flow between indoors and outdoors.

The right plants can help bring your garden space to life. Along with any borders and raised beds, placing potted plants around your outdoor seating area gives you the perfect blend of nature and home comforts. And by adding some indoor plants to your home, you can create a harmonious feel between the two spaces.

Beautiful **balconies**

With the right finishing touches, balconies can feel like an extra room in your home. From space-saving furniture to hanging plants and warm lighting, here's some tips for creating a space you'll love spending time in.

Flexible furniture

For smaller balconies, versatile seating is a game changer. Unwind with cosy bistro styles, or opt for a modular coffee set that you can rearrange for different occasions. For a tidy finish, look for a set with stackable chairs, making them easy to pack away at the end of the night.

To shop furniture **see pages 6-85, visit us in store or at diy.com**

Smart planting

With a few clever additions, smaller outdoor spaces can feel like lush paradises. Things like hanging baskets, climbing plants and wall planters will bring plenty of colour and interest to your balcony, without taking up extra floor space.

Discover the range at your local **B&Q garden centre or at diy.com**

Layered lighting

Wall-mounted lights are a great way to keep balconies feeling bright and cosy. Complete the look with the Omalos solar side table, which charges up using the sun to light up your space at night.

To shop outdoor lighting **see page 156, visit us in store or at diy.com**

Handy storage

Whether it's a bench with built-in storage or a box for packing away cushions, adding storage can help keep smaller spaces feeling fresh and tidy.

Your perfect **barbecue**

Whether you're planning relaxed family meals or hosting summer get-togethers, choosing the right barbecue makes all the difference. From charcoal and gas to easy electric options, find the perfect one for your next outdoor feast.

Charcoal kettle barbecues

Great for beginners and aficionados alike, kettle barbecues deliver that much-loved charcoal taste, while still being simple enough for everyday cooking. Known for their compact size and versatility, they have a domed lid that locks in heat, allowing you to grill, roast, or cook indirectly with ease. Perfect for smaller spaces, and smaller feasts. For added convenience and accessibility, each Elland kettle barbecue includes a side rack that can secure the lid when you're attending to your food.

Charcoal barrel & Kamado barbecues

Ideal for those who love an authentic barbecue flavour. With a large cooking surface and a distinctive barrel shape, barrel barbecues allow heat and smoke to circulate evenly, creating rich, smoky results – perfect for both slow-cooking and quick, high-volume meals. Meanwhile, Kamado barbecues use thick ceramic for superior heat retention, making them great for baking, grilling, and those low-and-slow dishes.

Gas barbecues

Start cooking in the flick of a switch. Gas barbecues heat up quickly, so you can start cooking in minutes without waiting around for coals to warm up. With precise temperature control, multiple burners and spacious cooking areas, they also make it easy to cook a range of dishes at once – ideal for entertaining.

Electric barbecues

A low-maintenance, practical option for balconies, patios and smaller outdoor spaces. Easy to use and quick to heat up, electric barbecues plug straight into your power supply, so you won't need to buy any fuel. While compact in size, they're still great for grilling everyday favourites, and are a good option when you're looking to avoid open flames.

Your garden **by night**

Keep enjoying your outside space long after the sun sets. From stake and string lights to warming firepits, here's some inspiration to help you create a cosy evening setup in your garden. Perfect for the nights you never want to end.

Add some warmth

Marshmallows at the ready. When the temperature cools, a firepit or chiminea can add a warming, festival-like atmosphere that makes outdoor gatherings feel extra special. A low smoke firepit is a great option for built-up areas and cities, with an advanced airflow design to minimise smoke and reduce pollution.

Light it up

As well as lighting up paths and steps, outdoor lighting can add a beautiful ambience to your garden. These cosy Noma festoon lights create a gorgeous overhead glow, while the solar-powered stake lights work to shine a light on plants and flowers.

LAY-Z-SPA®

The new generation of affordable energy-efficient hot tubs

With two decades of leading innovation as the pioneers of inflatable hot tubs, Lay-Z-Spa has taken the next step in evolving technology, construction materials and features to offer affordable home luxury that is energy efficient – ahead of anyone else.

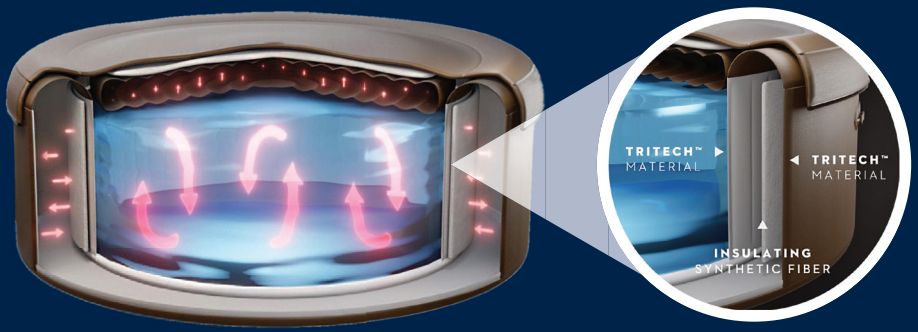
With the introduction of award-winning EnergySense® and ThermaCore™ thermal insulation technology, the new generation of Lay-Z-Spa hot tubs is up to 63% more energy-efficient than standard inflatable hot tubs.

Pioneering award-winning heat-saving technology

Exclusive heat saving technology

New EnergySense® construction uses up to 58.8% less energy

New ThermaCore™ construction uses up to 63.6% less energy



Integrated multi-layer thermal insulation with synthetic fiber and TriTech®

EnergySense® is a revolutionary development never seen before in inflatable hot tubs. These hot tubs feature a layer of thermal insulation built-in to the inflatable liner and top cover, never seen from the outside, and offer up to **58.8%** better energy efficiency*.

ThermaCore™ is a construction made up of rigid lightweight foam shaped into panels that create the structure of the foam hot tubs. This uniquely designed material not only gives the hot tubs their stable structure but also has exceptional thermal properties – up to **63.6%** less power usage*.

Based on tests conducted in Germany by TÜV Rheinland*, one of the world's leading providers of testing, inspection and compliance for everything from consumer goods to road vehicles to building infrastructures.

Wellness & recovery made simple

Alongside unrivalled relaxation, Lay-Z-Spa hot tubs help support a healthier lifestyle by reducing stress, enhancing mental clarity, aiding muscle recovery and boosting cardiovascular health. All from the comfort of home.

Scientifically proven health benefits

Independent research conducted by Coventry University's Research Centre for Sport, Exercise and Life Sciences found that using a Lay Z Spa for 30 minutes shows positive benefits for mental health and cardiovascular health.

This includes:

- Reduced anxiety
- Reduced stress hormones
- Reduced blood pressure
- Elevated heart rate (equivalent to that when brisk walking)
- Increased blood flow

Enhanced performance & recovery

Used by athletes and fitness enthusiasts alike, hot tub hydrotherapy significantly improves recovery after sports & exercise by increasing blood flow, which helps deliver oxygen and nutrients to tired muscles. The combination of warm water and targeted massage can reduce muscle stiffness, ease post-workout soreness, and promote faster recovery between training sessions.

Ordering and delivery FAQs

Will all my home-delivered items arrive together?

You can select the same delivery date for several products at the checkout at diy.com. However, items delivered by different partners may arrive separately and at different times.

Do you deliver to my address?

We're currently unable to deliver online orders to the Republic of Ireland, Jersey, Guernsey, Isles of Scilly, Scottish Islands (including Isle of Skye, Isle of Arran, Isle of Colonsay, Isle of Cumbrae, Isle of Jura, Isle of Coll, Isle of Eigg, Isle of Rum, Isle of Canna), Orkney Islands, Outer Hebrides and BFPO addresses.

Bulk products will be delivered to the kerbside outside of your address. You'll be advised at the checkout if this is the case, and you'll be responsible for moving these items onto your property.

Can B&Q let me know the time of my delivery?

Some of our delivery partners may contact you in advance by phone or by text message and may let you know either an estimated arrival time or confirm an am/pm delivery slot. If this applies to your order, we'll let you know before you check out and in your confirmation email.

When will my home delivery order arrive?

For the majority of products on diy.com, we'll either be able to let you know, or let you choose, a delivery date before you check out. For all other products, we'll let you know that we'll be in touch by phone or text message to arrange a delivery date. Deliveries will be made between 8am and 6pm.

When can I collect my Click + Collect order?

If you order before 7pm Monday to Friday or 4pm Saturday and Sunday, your Click + Collect order will be available from 1pm the next day in your chosen store.

Please note that in some stores your order will take two days to be ready and can then be collected after 6pm (this includes stores in Northern Ireland and on the Isle of Man, please see diy.com/click-collect for the full list).

Find out more about when your order will be ready for collection on our Click + Collect page at diy.com/click-collect

If you don't collect your order straight away, we'll hold it in store for you for 7 days. If it's not been collected after 7 days, one of our team will be in contact with you.
