

Fence Life Plus+

5 Year Protection for rough sawn & smooth

Our Fence Life Plus+ isn't your bog-standard fence treatment. You can brush it or spray it on and even apply it to damp wood.

You can use it on all rough sawn and smooth planed sheds and fences. It'll stand up to rain, frost and snow and won't lose its colour in the sun. In fact, with 2 coats on rough sawn or 3 coats on smooth planed wood, you won't have to do it again for up to 5 years.

We've also made it easy to use. You can brush it or spray it on. You can even apply it to damp wood.* Perfect for the unpredictable weather,

Ronseal Fencelife Plus' Key Benefits:

5 Year All-Weather Protection

For Rough Sawn, Smooth Planed, & Damp Wood

Quick Drying

Delivers Deep, Rich Colour

No Peeling Or Flaking

Soaks Deep Into The Wood

Easy application and recoat

2 Coats Required

Showerproof In 1 Hour

Brushable & Sprayable

TECHNICAL DATA

Colours Available in 15 colours.

Number of Coats 2/ 3

Coverage Up to 3m²/litre

Dry Time Showerproof in 1 hour, recoatable in 4 hours.

Gloss/ Sheen Level Matt- 20 at 60°

Application-Temperature Above 10°C

Sizes 5L, 9L

STORAGE

Store in a cool, dry, well-ventilated place away from heat and sources of ignition. Carefully reseal partly used containers.

Always store and transport in a secure upright position to avoid spillage.

Protect from frost.

COVERAGE

Up to 3m²/litre

Coverage rate is dependent upon the type, nature and absorbency of the substrate.

ODOUR

Low VOC

PROPERTIES

Should not be applied in areas that exceed 60°C.

PREPARATION

*If it's been raining, you'll need to let the wood dry for 5 hours before putting it on. The wood can be damp but not dripping wet. And it should not be applied in the rain.

Make sure it's a warm, dry day (above 10°C). Cold wet weather stops it from drying and it may even wash off. Clean the wood with a stiff brush to get rid of any dirt. If you're spraying it on, always read the sprayer instruction first. Check you're happy with the colour, find a small hidden patch of wood and try it before you cover the whole fence or shed.

APPLICATION

With a Brush

Get loads of Fence Life Plus+ on your brush. Put a thick coat on and if you see any drips, brush them in. On rough sawn wood you'll need to use 2 coats to get 5 Year colour protection. For smooth planed wood you'll need to put on 3 coats.

If your wood is very weathered, you may need to put another coat on. Leave 4 hours between coats. Any drips on plants, paving etc. should be cleaned up straight away with soapy water before it dries.

With a Sprayer

Pour the liquid into the tank. Pump it up or turn it on and start spraying.

When spraying, the tip for getting an even finish is to use long, sweeping, horizontal arm movements. Move along the full width of the fence panel, drop down and do the same again. Overlap each pass by 50%. This will make sure the whole area is covered with the correct amount of product.

On rough sawn wood you'll need to use 2 coats to get 5 Year colour protection. For smooth planed wood you'll need to put on 3 coats.

If your wood is very weathered, you may need to put another coat on. Leave 4 hours between coats. Any drips on plants, paving etc. should be cleaned up straight away with soapy water before it dries.

COMPLETION

Brush

Take as much product as possible off your brush and then clean it in warm, soapy water.

Sprayers

Sprayers aren't cheap, so if you want to use them again, you need to keep them clean.

Don't leave any Fence Life Plus+ in the sprayer. Flush the sprayer out with water and make sure the sprayer wand and nozzle are clean. For full instructions on clean up please read your sprayer instruction manual.

Keep the tub secure and stood upright to prevent spills.

HEALTH AND SAFETY

Read carefully and follow all instructions. Keep out of reach of children. If medical advice is needed, have product container or label at hand. Contains a biocidal product: Contains 1,2-Benzisothiazol-3(2H)-one and reaction mass of 5-chloro-2-methyl-4-isothiazol-3-one and 2-methyl-2H-isothiazol-3-one (3:1). May produce an allergic reaction. Warning! Hazardous respirable droplets may be formed when sprayed. Do not breathe spray or mist.

SUPPLY

Available from decorators' merchants, hardware and D.I.Y. outlets, builders and timber merchants and garden centers

FLAMMABILITY

Water-based, non-flammable, flash point - closed cup >93.3°C.

LIABILITY

The information in this Product Data sheet is based on technical knowledge and experience, and every care is taken to ensure its accuracy. This information is provided in good faith but without warranty, given ultimate results will depend on a range of factors beyond our control (such as method of application and surface conditions). We can accept no liability for the performance of products arising out of such use. Standard codes of painting practice should be followed.

DISPOSAL

Don't empty leftover paint into drains or watercourses. Instead, contact your local authority, who may have a particular way to get rid of unused paint.
