EN Care & maintenance

EN Use

1. Lay out deflated inflatable on a clear and flat area. Inspect for holes, tears or other damage.
2. Unplug the air valves to inflate this product with AIR.
 - **NOTE:** For easy air inflation, use an air pump designed specifically for plastic inflatables.
 - **BY PUMP:** Insert air pump nozzle into the valve. The air pump nozzle should be inserted deep enough to open the inner valve flap before inflating.
 - Do not over inflate the item. Once the item is completely inflated, insert the air valve plug to seal it shut.
 - Fill product with air until it is firm and solid. If there is any straining at the seams, the item is over inflated. If any seam begins to strain, immediately stop inflation and release air to reduce the pressure until all signs of stress on the inflatable are gone.
 - **DO NOT** use the product if there is straining at the seams. Inspect this product for rips, tears or punctures. Do not use if damaged.
3. Insert base stakes through the holes which are located at the bottom of inflatable to fix it to the ground.
4. To deflate, once the product is completely dry, carefully deflate and then roll it up.

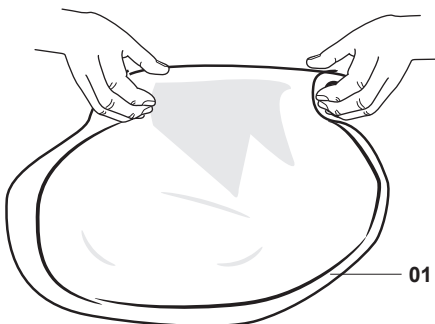

WARNING: FOR USE AS A DECORATION ONLY. NOT TO BE USED AS A TOY. KEEP OUT OF REACH OF SMALL CHILDREN. FOR INDOOR AND OUTDOOR USE. THIS PRODUCT SHOULD NOT BE USED AS A WATER TOY.

Repair Patch Instructions

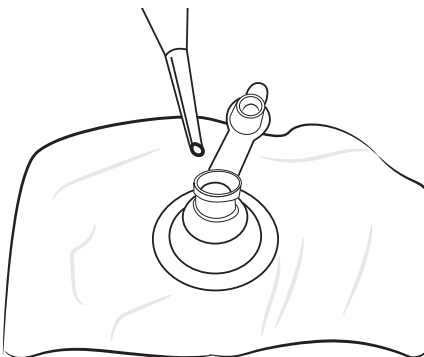

- A repair patch is included to repair punctures in the inflatable material.
- Do not use the patch for rips on the seam.
- In the event of an accidental puncture, cut out a suitably sized patch.
- Make sure you round the corners of your repair patch to avoid peeling.
- Make sure the area to be patched is clean and dry.
- Press patch firmly over the puncture.
- Leave patch to set for 20 minutes before inflating product.
