The Wood's Como 12K is a powerful air conditioner with a sleek and elegant form factor. This air conditioner will quickly and efficiently regulate the temperature in your home or work place, providing a comfortable climate all year around.

The Wood's Como 12K features a digital touch control panel as well as a remote control that makes it very easy to use. The sturdy wheels makes the unit very easy to move to where it is most needed at the moment, and with the included window kit you avoid drilling holes in your wall. The hot air is easily exhausted out through the window.

Powerful air flow ensures quick and efficient cooling

Digital touch control panel

The front display is convenient for monitoring the current temperature clearly from a distance.

Robust casters make the AC easy to move

In addition to all the features of the base model Como, the unit is also connected! Wood's has developed an app which available on IOS and Android.

Through the Wood's Connect app, you can control the unit as well as to see useful information about the room environment such as temperature and humidity.
