

Artemis and Alcludina mirrored bathroom cabinets safe removal guide

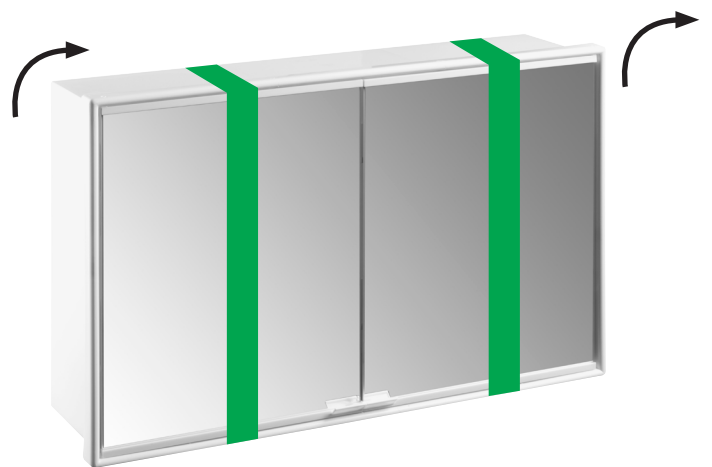

1. Using an appropriate screwdriver, carefully loosen the securing screws at the back of the cabinet. Ensure the cabinet remains supported but can be lifted away in step 3.

2. Using adhesive tape, secure both mirror doors closed. Wrap the tape around the top and bottom of each door, ensuring that the tape is securely fastened to the cabinet.

3. With care, and help from another person if required, carefully lift the cabinet up and away from the loosened screws. Place the cabinet in a safe location and return to a local B&Q store as soon as possible for a full refund.
