Furniture boards	22
Radiator cabinets	24

Choose your wall finishes

Whether it's soundproofing your space with our striking acoustic panels or tucking radiators away behind stylish cabinets, discover everything you need to give your décor the perfect finish.

Acoustic wall panelling

With a sleek design and impressive soundproofing qualities, acoustic panels give your space a relaxed and visually striking finish.

Wall panelling kits

Add a touch of elegance to your room with these easy-to-install wall panelling kits. Available in pine or MDF, these panels can be painted to match your décor.

Furniture boards

Available in a range of sizes and finishes, these boards can be used to build your own bespoke furniture, including tables, TV units and shelving.

Radiator cabinets

Designed to conceal your radiators, these handy cabinets give your heating a decorative finish, while also giving you some extra shelf space.

Acoustic wall panelling

As well as adding a sleek, contemporary feel to your home, these panels offer excellent soundproofing qualities, absorbing noise and reducing echoes to create a quieter, more relaxed space.

Sliding folding doors	58
French doors	62
Door handles	64
Door linings	65
Skirting and architrave	66

Choose your interior doors

From contemporary sliding designs to traditional panelled styles, we've got doors for every kind of project.

Panel doors

Our panel doors come in panelled or glazed designs, available in wood or white primed finishes.

Sliding & folding doors

Perfect for dividing spaces, our sliding and folding doors give you the freedom of open-plan living.

French doors

With clear glass to let the light shine through, French doors keep spaces feeling bright and airy.

Finishing touches

Find the handles, linings and architraves you need to finish your door in style.

Choose your finish

Pine

Slow grown for increased strength and durability, then kiln-dried for extra stability. Easy to paint, stain or varnish, with a choice of clear or knotty pine.

Oak veneer

With an ideal surface for staining or varnishing, oak veneer provides a premium finish.

White primed

With two coats of primer already applied, these MDF doors are ready to paint in your choice of finish.

White pre-painted

MDF doors coated with a polymer to give a consistent finish - no painting needed.

Cottage doors

With a rustic design and a range of wood and white finishes, these classic cottage-style doors give spaces a warm, traditional feel. For a brighter look, our glazed cottage doors come complete with toughened 4mm safety glass.

What does ledged and braced mean?

In addition to the vertical panels that make up the door, ledged and braced doors also feature horizontal lengths of wood (ledges) and diagonal lengths of wood (braces), giving the door extra support and reducing the risk of warping. Often, these doors will also include a frame.

LB = ledged and braced.

FLB = framed, ledged and braced.

Solid and hollow cores explained

Solid core doors

With a solid filling of engineered material, these durable doors offer excellent soundproofing and insulation.

Hollow core doors

Hollow doors have a honeycombed interior core, making them lightweight and easier to install than solid core doors, but also less effective at soundproofing and insulating.

*Home delivery only.

Selected products are available for home delivery to selected locations. Restrictions apply. Delivery charges may apply. For full details please see diy.com/customer-support/delivery or see in store for further details.

Fire doors

Available in a selection of designs, our fire doors match the rest of our interior styles, giving you a consistent look throughout your home. Plus, thanks to their solid design, these doors can help rooms feel quieter and warmer.

Shown: 4 panel white woodgrain fire-resistant door.

Fire doors explained

Fire doors have been carefully designed, thoroughly laboratory tested and third party BWF certified to withstand the spread of fire for a minimum of 30 minutes. Fire door assemblies must be installed correctly with appropriate fire rated ironmongery and intumescent strips around the frame, which rapidly expand in extreme heat, sealing the gap between the door and frame, creating a barrier against fire.

If you're renovating your home or adding an extension, check the latest building regulations to see exactly where fire doors should be used. For effective protection, it's recommended to have fire doors fitted by a professional installer.

For more information visit diy.com/internal-door-guide

Intumescent fire door seals

When buying a fire door, you'll also need to buy and fit an intumescent seal, which expands in the event of a fire to create a seal between the door and the frame.

Fire door linings

Fire doors require specially designed door linings. These linings must be BWF Certifire approved, and should be pre-routed to fit an intumescent strip.

See page 54 for our selection of fire door linings, or explore the full range at diy.com

For our full range of door linings, visit diy.com

Skirting and architrave

Acting as a frame for doorways and windows, architrave adds a decorative finish to your space. Choose from four distinctive styles and a selection of finishes, then pair with a matching skirting board for a seamless look across your interiors.

Shown: Torus oak veneer skirting and architrave.

Shown: Ogee oak veneer skirting and architrave.

Good to know

Find your perfect finish. Here's a quick look at the different finishes for our skirting and architrave boards.

Pine

Slow grown for increased strength and durability, then kiln-dried for extra stability. Easy to paint, stain or varnish.

White primed

With two coats of primer already applied, these MDF boards are ready to paint in your choice of finish.

White fully finished

MDF coated with a polymer to give a consistent finish - no painting needed.

Oak veneer

With an ideal surface for staining or varnishing, oak veneer provides a premium finish.

All our skirting boards and architraves can be purchased in either packs or singles, see diy.com for details.

Stair flooring	92

Choose your stair parts

Whether you're finishing a full renovation or just treating your staircase to a bit of an upgrade, we've got everything you need to transform your stairs into a stunning focal point.

Stair parts

Customise your staircase with our range of stair parts, including spindles, newel posts and newel caps, all available in a selection of finishes.

Handrail kits

Explore our range of wooden and stainless steel handrail kits, along with a selection of separate handles and fittings to help you find the perfect fit.

Stair systems

Available in two distinct styles, our easy-to-install stair systems make upgrading your staircase easy, with co-ordinating components for a consistent look.

Stair flooring

Give your staircase a luxurious upgrade with our fully-finished stair flooring, crafted from real oak veneer with a smooth engineered finish.

What makes a staircase?

Although they come in a range of styles, all staircases are crafted from the same key components. Here's a look at the different staircase parts to help you get started.

Staircase components

- 1. Half newel post**
The structural post that fits flush against the wall on the landing.
- 2. Landing return**
The flat area of flooring, usually at a right angle to the top of a staircase, leading to rooms.
- 3. Handrail**
This runs diagonally with the pitch of the stairs on top of the spindles.
- 4. Spindle/baluster**
The vertical infill between the handrail and baserail (or the tread, if it's an open string stair).
- 5. Baserail**
Runs parallel to the handrail at the base of the spindles.
- 6. Newel cap**
The finishing touch to the top of the newel post.
- 7. Newel post**
Structural posts that fit at the top and bottom of the staircase and support the handrail.
- 8. Stair string**
When a staircase has a closed string, the treads and risers are housed inside the string, with no visible outside profile. With an open string, you can see the zig-zag of the treads.
- 9. Tread**
The horizontal top of a step.
- 10. Riser**
The vertical part of a step.

Design your staircase

Choose your handrail and baserail

Measure the distance between your top and bottom newel posts. This is the length you'll need for your handrail and baserail.

Choose your spindle size and design

Count the number of steps in your staircase, then multiply by two. This is how many spindles you'll need. We recommend you buy a couple extra, just in case.

Choose your newel posts and caps

You'll need one newel post for the top and one for the bottom of a flight of stairs. You can choose from square, pyramid or ball newel caps.

Choose your finish

Choose from a selection of finishes, including knotty pine, oak, primed timber, glass and metal.

Ready-primed stair parts

Match your staircase to your décor. With these primed, ready-to-paint stair parts, no sanding, filling or priming is needed, giving you a perfect finish in less time. All parts are strength-tested to domestic regulations and FSC® certified.

Shown: Stop chamfered pine spigot newel post.

Newel posts explained

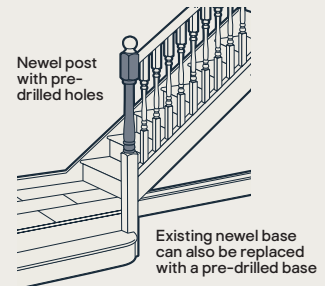

Complete newel post

A great all-in-one solution, complete with a newel base, post and ball newel cap. Stop-chamfered newel posts and caps are sold separately.

Spigot newel post

The perfect option where your existing newel base can't be removed from your staircase. The holes have been pre-drilled for you, making it easier to fit to the handrail.

Stair flooring

This oak veneer stair flooring will transform your staircase into a stylish centrepiece. It's fully finished with four coats of lacquer, making it durable and easy to install.

Shown: Oak veneer stair flooring.

Features

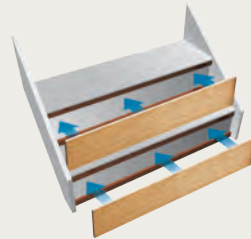

- Fully finished real oak veneer with four coats of lacquer
- Smooth engineered finish designed to really make your staircase stand out
- Easy to install - cut to size, remove the adhesive paper and gently iron onto your existing staircase
- Made from responsibly sourced timber
- A perfect complement to our range of stair parts.

How to install stair flooring

Start by measuring your steps and cutting the packing strips, treads and risers down to size. Glue and screw the packing strips to the existing risers, then glue the new risers to the packing strips. Finally, glue the new treads to the existing treads, ensuring the lip and recess fit together snugly.

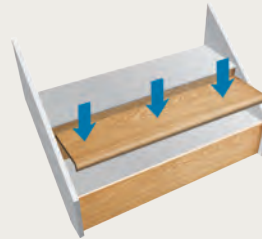

Step 1

Fit packers and risers.

Step 2

Fit treads.

Step 3

Repeat for each step until complete.

Oak veneer stair flooring step

Tread W1000 x H28 x D300mm
Riser W1000 x H9 x D195mm

Includes 1 x riser board and 1 x tread board, to create one single step.
5055170308208

£59 each

Oak veneer stair flooring 3-step kit

Tread W1000 x H13 x D300mm
Riser W1000 x H9 x D195mm

Includes 3 x riser boards and 3 x tread boards, to create three steps.
5055170308239

£144

Oak veneer stair flooring step extension

W1220 x H13 x D200mm

Includes 1 x extension board.
5055170308222

£39 each

Exterior doors

Good to know

Door handles, locks, latches, letterplates, door frames and weather bars are sold separately. See page 106 for more details or visit diy.com

Shown: Knotty pine ledged and braced back door.

What does ledged and braced mean?

In addition to the vertical panels that make up the door, ledged and braced doors also feature horizontal lengths of wood (ledges) and diagonal lengths of wood (braces), giving the door extra support and reducing the risk of warping. Often, these doors will also include a frame.

LB = ledged and braced.

FLB = framed, ledged and braced.

VELUX roof windows

Fill your space with mood-boosting light. With a handy top opening and integrated ventilation, these highly engineered roof windows will transform any space.

Getting the daylight right with VELUX

Natural daylight does wonders for our sense of wellbeing – and finding the right windows is a big part of that. That's why VELUX has spent decades designing innovative roof windows, blinds and shutters that fill rooms with an abundance of light.

To maximise a room's daylight, make sure the glazed area of your windows is at least 20% of the room's total floor area. Light-coloured walls and furniture will also help to reflect all that natural light, creating lighter and brighter spaces.

VELUX centre-pivot roof window features

- Manual opening
- Convenient top control bar for easy opening, even with furniture underneath
- Double-glazed
- Ventilation filter protects against dust and insects
- Easy to rotate the roof window and clean the outer glass
- Blinds are easy to add by simply clicking them into the patented mounting brackets.

VELUX centre-pivot roof window
Aluminium and white painted wood frame.

Flashings

All our roof windows require flashings (sold separately). Designed to integrate your window perfectly with your roof, flashings make sure windows are completely weathertight.

Skylight features

- Swing handle and handle mount positions help ventilation, ideal for closed attic spaces
- Integrated aluminium flashing for sound weatherproofing
- Turn limiter holds window stable when opened, preventing the skylight from slamming shut.

Garage doors

Find the perfect garage door for your exterior. Constructed from galvanised steel, our durable up-and-over doors give your space a premium, long-lasting finish, with a selection of styles and colours to choose from.

Choose your garage door 125

Canopy up-and-over garage doors 126

Retractable up-and-over garage doors 134

Choose your garage door

Choose from our range of standard canopy up-and-over garage doors, or opt for a sleek retractable design. Both designs come with a choice of four distinct door styles and a selection of colours.

Canopy up-and-over

The most common type of up-and-over garage door. When open, one third of the door protrudes out of the garage space, creating a 'canopy'.

Retractable up-and-over

Using horizontal tracks that run back into your garage space, these doors are designed to retract fully when open, leaving your driveway free and clear.

Garage door features

- Constructed from galvanised steel
- Features a two-point locking system
- Smooth opening and closing
- Available in a choice of four styles and seven colours.

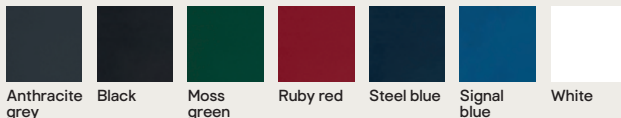

Canopy up-and-over

- Tracks don't project into the garage space
- Guide rail and anti-drop safety mechanism
- Available in single door sizes up to 2438mm wide.*

Retractable up-and-over

- Horizontal tracks project into the garage space
- Guide rail prevents door from closing suddenly
- Available in single door sizes up to 2438mm wide.*

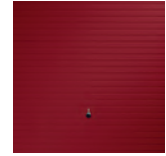

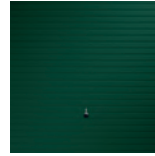

*Excluding frame.

Framed up-and-over canopy garage doors

These framed canopy up-and-over doors are available in single door sizes up to 2438mm wide.* Choose from Elizabethan, Georgian, Regency or Victorian styles, each available in a choice of seven colours. **Home delivery only.**

Terms and conditions

Ordering and delivery

Available for home delivery

Selected items are available to order for delivery direct to your home. Available for selected locations. Restrictions apply. Delivery charges may apply. See diy.com or see in store for further details. When buying at diy.com we'll tell you the delivery time during the checkout. Please ask about delivery times when ordering in store.

Store delivery service

If you're not able to get your items home from store, why not use our store delivery service? This service enables you to have your items delivered to the ground floor room of your choice in your home. Ask your local store for details on their delivery area. Charges may apply.

Ordering and delivery FAQs

Will all my home-delivered items arrive together?

You can select the same delivery date for several products at the checkout at diy.com. However, items delivered by different partners may arrive separately and at different times.

Do you deliver to my address?

We're currently unable to deliver online orders to the Republic of Ireland, Jersey, Guernsey, Isles of Scilly, Scottish Islands (including Isle of Skye, Isle of Arran, Isle of Colonsay, Isle of Cumbrae, Isle of Jura, Isle of Coll, Isle of Eigg, Isle of Rum, Isle of Canna), Orkney Islands, Outer Hebrides and BFPO addresses.

Bulk products will be delivered to the kerbside outside of your address. You'll be advised at the checkout if this is the case, and you'll be responsible for moving these items onto your property.

Can B&Q let me know the time of my delivery?

Some of our delivery partners may contact you in advance by phone or by text message and may let you know either an estimated arrival time or confirm an am/pm delivery slot. If this applies to your order, we'll let you know before you check out and in your confirmation email.

When will my home delivery order arrive?

For the majority of products on diy.com, we'll either be able to let you know, or let you choose, a delivery date before you check out. For all other products, we'll let you know that we'll be in touch by phone or text message to arrange a delivery date. Deliveries will be made between 8am and 6pm.

When can I collect my Click + Collect order?

If you order before 7pm Monday to Friday or 4pm Saturday and Sunday, your Click + Collect order will be available from 1pm the next day in your chosen store.

Please note that in some stores your order will take two days to be ready and can then be collected after 6pm (this includes stores in Northern Ireland and on the Isle of Man, please see diy.com/click-collect for the full list).

Find out more about when your order will be ready for collection on our Click + Collect page at diy.com/click-collect

If you don't collect your order straight away, we'll hold it in store for you for 7 days. If it's not been collected after 7 days, one of our team will be in contact with you.

Where do I collect my Click + Collect order from?

Your Click + Collect order will be available at the Click + Collect point in your chosen store. Look for the Click + Collect signs in the checkout area.

About our products

All products are subject to availability.

All prices are correct at the time of going to press and may be subject to change. Whilst we try to ensure accurate colour representation, please be aware that the photographic process may sometimes alter colours. Some items in our photographs are included for display purposes and are not necessarily intended to be installed as shown with regard to proximity. Please refer to the instructions supplied with your product before installation. A summary of this price guide is available in Braille, large print or on audio cassette. Please ask at your local store for more details.

Finance

Open a FlexiPlan credit account and use it for everything you need from B&Q for your home improvement projects when you spend £75 or more. There's one application, one credit limit, and multiple repayment options. Please see diy.com/flexiplan for more information or speak to a colleague in store. Credit available on purchases between £75 - £25,000. **17.9% APR representative.** Interest-free options available on purchases over £1,000. Terms and conditions apply. Availability of credit is subject to status. **B&Q Limited acts as a credit broker and not as a lender and offers credit products from more than one lender. The credit advertised here is provided by Creation Consumer Finance Ltd.**

Doing your bit

The UK's Waste Electrical and Electronic Equipment (WEEE) regulation aims to ensure the waste of electrical and electronic equipment is disposed of in an environmentally friendly way. You can take back any unwanted small electrical products, or if you've purchased a larger, like-for-like product from us, to a B&Q store free of charge. Where you've purchased a large like-for-like electrical product from us within 28 days, we can collect it for a fee per item by calling 0333 014 3529. Visit diy.com for more details.

Returns policy

Please keep your receipt for anything you buy from us. It'll ensure we can help you if you need to bring something back.

If you return a product unused, with the original receipt within 90 days of purchase (or delivery where applicable) we'll exchange the product or issue a refund based on the original method of payment. For purchases made by debit/credit card, the same card must be used to process the refund. B&Q customer sales forms are an acceptable form of receipt.

Products that have been cut, made to measure or mixed to your requirements cannot be exchanged or refunded.

Your consumer rights are not affected

If the product you purchase is faulty, or not as described, we may offer an exchange, refund or repair as appropriate, in accordance with your consumer rights.

Ways to return your items

In the first instance, return via home delivery or diy.com

Contact us on 0333 014 3357.

Lines are open 8am-8pm Monday to Saturday and 10am-4pm Sunday.

Email us at home.delivery@b-and-q.co.uk

Write to us at B&Q Customer Services Centre, North Avenue, Clydebank, West Dunbartonshire, G81 2NT.

Alternatively, return your items to your local B&Q store

You'll need to take the product, your receipt/sales advice and the debit/credit card you used for payment with you.

Contacts

If you would like to leave feedback about your experience in our stores please let us know.
