Your choice of fires

There's a wide variety of fires in our brochure, here's what you'll find –

page 12

Fireplace suites

Fireplace suites give you a complete fireplace in one purchase, simply install against the wall and plug in. It includes your surround, back panel (when required), hearth and fire.

page 33

Wall hung fires

Wall hung fires are quick and easy to install, with everything you need in one box. Some electric wall hung fires are simply hang and plug in, whereas others require a professional installation. Gas wall hung fires should be installed by a Gas Safe registered engineer.

page 45

Stoves

Stoves are available in gas, electric or solid fuel types. Electric stoves are portable, simply plug in and enjoy. Flueless gas stoves should be installed by a qualified professional. Solid fuel stoves are more efficient than open fires and are Ecodesign Ready 2022 compliant.

page 59

Inset fires

Electric inset fires are easy to install as they don't require a chimney or flue. Whatever your flue type we have a solution to meet your gas inset fire requirements.

page 67

Surrounds, back panels and hearths

Choose from painted, wood or micro marble, with a complete surround set. Or create your own look by choosing a surround, then adding a matching or contrasting back panel and hearth.

page 77

Mix and match fire and surround sets

Whether you choose gas or electric there is a mix and match option for you. We've matched inset and stove fires with a selection of surround sets, but the final choice is yours.

Accessories - Start on page 87

Whether you want a log basket or a fully coordinated fireside set – you'll find it here.

Choosing your fire

There's lots of information in this brochure – plus there's more information at diy.com/choosingtherightfire

1. Which type of fuel will you use?

Gas

Clean and efficient a great source of heat for your home.

Look out for the green gas logo for our most energy efficient options, helping you control your energy bills.

All gas fires must be installed by a Gas Safe registered engineer. For more info go to www.gassaferegister.co.uk

Electric

Electric fires allow you to bring the warmth of a flame effect to a room with or without heat. A clean and instant alternative. Just plug in and go!

Solid fuel

Solid fuel, e.g. wood, coal etc, is an efficient solution that gives you the enjoyment of a real fire. Bring ambience and comfort to your home throughout the winter months.

All solid fuel stoves must be fitted in accordance with current regulations.

Choosing the right fuel for your solid fuel stove or open fire

Smoke controlled areas have been introduced into the UK by The Clean Air Act and are regulated by the Local Authorities. If you're unsure whether you live within one of these areas, please search online for latest advice from DEFRA or call 03459 335577.

- In smoke controlled areas, you need to ensure you're only burning approved smokeless fuels in your solid fuel stove or open fire. If it's a wood only burner, your appliance must be certified as DEFRA exempt and you must ensure you only burn dry wood with less than 20% moisture. Kiln dried wood is ideal for these types of stoves.
- Opting for a coal fire? You'll need to consider using a smokeless product so you're able to reduce the amount of air pollution emitted.
- No matter where you live, if you're burning wood fuel it'll be more effective and emit fewer pollutants if the logs are as dry as possible. To ensure this, it's best to store them in a log store or covered area with free air circulation.
- It's now a building regulation to have a carbon monoxide (CO) detector fitted in the same room as a solid fuel stove, log burner or open fire. However, for peace of mind, we recommend you fit one no matter what type of fire you have - old or new.

Features & controls

Control type manual - The function controls are on the unit.

Control type slide - The control is located in an accessible position for easier lighting of the unit.

Control type remote - Has a separate remote control for ease of use.

LED bulbs use less energy than conventional bulbs.

Control type thermostatic - Thermostats switch heat on and off to maintain heat levels. This reduces the overall heat output required during use, helping you use less energy and reduce running costs.

2. Which chimney or flue type do you have?

Chimney or flue	 Brick or stone (Class 1) <ul style="list-style-type: none"> • Older properties, typically pre 1960s • Traditional chimney, usually rise up out of the rooftop. 	 Pre-fabricated flue† (Class 2) <ul style="list-style-type: none"> • Newer properties built after 1960s • Metal flue pipe on the roof. 	 Pre-cast <ul style="list-style-type: none"> • Newer properties • Raised ridged tile or metal flue pipe on the roof • Shallower in depth compared to usual chimney. 	 No chimney <ul style="list-style-type: none"> • No chimney

3. Choosing your fireplace

One box solution

To create a simple yet stunning room update, choose from our fireplace suites (page 12) or wall hung (page 33) fires ranges. These provide a one-box solution and if you choose electric you can simply install against your wall, plug in and enjoy!

Mix and Match

Alternatively, choose from our range of stoves or inset fires and pair with a surround set to get the look you want.

For full customisation, create your own fireplace by selecting your fire, then adding a surround, back panel and hearth to build your own unique look. Have a look at our Mix and Match ideas on page 77-86.

If you are unsure about the suitability of a fire and your intended location for it, you should check local Building Regulations. If in any doubt, or where required by law, consult a competent person who is registered with an electrical self certification scheme. †Some metal flue boxes are a wider 7" meaning you can have a Class 1 fire also. Some fires in this brochure are primarily designed to provide top up heat and are not intended as a primary heat source.

The beauty of a real fire, the simplicity of electric.

An Optimyst fire provides the beauty of a real fire with the simplicity of electric and will captivate you from the moment you see it.

The authentic three-dimensional flame and smoke effect is created by lights reflecting against ultra-fine filtered water mist, an illusion so realistic you will find it difficult to distinguish from the real thing. The flame effect can also be adjusted from gentle 'embers' to 'roaring flame' to give you the flame picture of your choice.

Optimyst is available in a selection of fires across freestanding stoves, insets, wall mounted fires and complete suites to enhance the ambience of any home. Please see these products featured in the relevant sections of this brochure.

Why choose Optimyst?

PAGE 61

Optimyst Wall Fire

WALL MOUNTED ELECTRIC FIRE

PAGE 37

Unique Optimyst effect

An authentic and unique three dimensional flame and smoke effect created by lights reflecting against ultra fine filtered water mist.

2kW heat output

Offering up to 2kW of heat via a fan heater.

Choice of 2 heat settings

A choice of 1kW or 2kW heat output helping control running costs.

Thermostat

Maintains the desired room temperature by automatically switching on and off.

Remote control

Operate the fire from the comfort of your armchair.

Fuel beds

Complete the look of a real fire with the log effect fuel bed.

Flame effect only

Enjoy the ambience of the flickering flame effect any time without the heat.

Easy to use

Simply plug in the fire, top up the water tank, and you are ready to go!

Design choice

Choose the model for your home from insets, stoves, suites & wall-mounted designs.

Prism 74 - See page 34

Optiflame[®]

Ignite your Imagination

Optiflame is our original flame effect which has been continually refined and improved since it revolutionised the electric fires market in 1988.

Optiflame uses the art of illusion with the flame effect being created from a reflecting surface, producing a series of seemingly random flickers that mimic the real thing to produce a convincing 2D flame effect that adds depth and comfort to any space.

Optiflame is available across a wide range of our fire styles, offering you a way to bring the luminescence of flame to any space.

Please see our range of Optiflame products featured in the relevant sections of this brochure.

Wall hung fires

Wall hung fires are quick and easy to install, with everything you need in one box. Electric wall hung fires simply hang and plug in, with flame effects that you can enjoy without the heat all year round (see page 33) however some may require an installation by a qualified professional. Gas wall hung fires should be installed by a qualified professional (see page 42).

FOCALPOINT

- Replace your standard gas fire with a flueless gas fire
- Up to 70% cheaper heating bills compared to equivalent electric fire
- A flueless gas fire will convert 100% of the gas to heat, unlike open coal effect fires which convert as little as 10%+
- Wall mounted gas fire – no recess required

*Calculation is based on gas consumption running on maximum setting for the Midnight flueless gas fire (2.0kW) compared to a 2kW electric fire. All figures quoted are gross.
+Donnachadh McCarthy, leading eco-consultant, Sunday Times

Stoves

Stoves are available in gas, electric or solid fuel types. Electric stoves are portable, simply plug in and enjoy (see page 45). Flueless gas stoves should be installed by a qualified professional (see page 55). Solid fuel stoves are more efficient than open fires (see page 57).

Remember to fit a carbon monoxide (CO) detector in the same room as your new solid fuel stove.

FOCALPOINT

- Up to 70% cheaper heating bills compared to equivalent electric fire
- A flueless gas fire will convert 100% of the gas to heat, unlike open coal effect fires which convert as little as 10%**
- No chimney, flue or hearth required
- Can be installed on a laminate floor
- Gas fires should be installed by a Gas Safe registered engineer
- Instant, variable, comfortable heat
- Energy rated Class A
- Catalytic technology & incorporated safety features
- Easy to use front facing slide control system
- Detailed log effect fuel bed
- Available in three styles and three colours

*Calculation is based on gas consumption running on maximum setting for the Midnight flueless gas fire (2.0kW) compared to a 2kW electric fire. All figures quoted are gross. **Donnachadh McCarthy, leading eco-consultant, Sunday Times

Inset fires

Electric inset fires are easy to install as they don't require a chimney or flue. You can operate the flame independently giving a warm ambience without the heat. Whatever your flue type we have a solution to meet your gas inset fire requirements. Complete the look with surrounds, back panels and hearths (from page 67).

Back panels & hearths

Back panels and hearths come in a choice of micro marble and granite or reversible laminate finishes. Available in a range of beautiful colours and effects, there's something which will complement your fire and surround perfectly. There's also stylish fireside accessories to complete your new look. For more information search for 'back panels and hearths' on diy.com

The back panel and hearth sets below are provided in 5 parts, you can assemble the back panel with the middle panel to create a solid back panel with a small plug cut out for an electric stove or without the middle panel to inset a traditional electric fire.

Ordering and delivery

Available for home delivery

Selected items are available to order for delivery direct to your home. Available for selected locations, restrictions apply. Delivery charges may apply. See diy.com for further details. When buying on diy.com we'll tell you the delivery time during the checkout. If ordering in store please ask.

Store delivery service

If you're not able to get your items home from store why not use our store delivery service? This service enables you to have your items delivered to the ground floor of choice in your home. Ask your local store for details on their delivery area. Charges apply.

Van hire

B&Q has teamed up with Hertz 24/7 to offer you a convenient hourly van hire service to take your purchases home. In three easy steps you could be driving your van home from any of our participating stores.*

In order to drive, you must be over the age of 21 and have held your licence for at least a year. You also need to hold a credit or Visa debit card in your own name. Registration is simple and you can be on the road in minutes!

*Participating stores only. Please visit our store locator on diy.com to see if your nearest store is participating. Terms and conditions apply. Click please visit www.hertz247.com/bq for further details. †Applies to selected products and locations only. Restrictions apply. Check diy.com for availability.

FlexiPlan

Powered by: **creation**

The credit account that puts you in control.

One application, one credit limit, multiple repayment options. (17.9% APR representative)

Fast, easy online application – to find out more visit diy.com/flexiplan

Credit available on purchases between £75-£25,000. 17.9% APR representative. Interest free options available on purchases of £1000 and over. Buy now pay nothing for 12 months available on purchases from £500. Terms and conditions apply. Availability of credit is subject to status. B&Q Limited acts as a credit broker and not as a lender and offers credit products from more than one lender. The credit advertised here is provided by Creation Consumer Finance Ltd.

Ordering & delivery FAQs

Will all of my home delivered items arrive together?

You can select the same delivery date for several products at the checkout at diy.com. However, items delivered by different partners may arrive separately and at different times.

Do you deliver to my address?

We're currently unable to deliver online orders to the Republic of Ireland, Jersey, Guernsey, Isles of Scilly, Scottish Islands (including Isle of Skye, Isle of Arran, Isle of Colonsay, Isle of Cumbrae, Isle of Jura, Isle of Coll, Isle of Eigg, Isle of Rhum, Isle of Canna), Orkney Islands, Outer Hebrides and BFPO addresses.

Bulk products will be delivered to the kerbside outside of your address. You'll be advised at the checkout if this is the case, and you'll be responsible for moving these items onto your property.

Can B&Q let me know the time of my delivery?

Some of our delivery partners may contact you in advance by phone or by text message and may let you know either an estimated arrival time or confirm an am/pm delivery slot. If this applies to your order, we'll let you know before you check out and in your confirmation email.

When will my home delivery order arrive?

For the majority of products on diy.com, we'll either be able to let you know, or let you choose, a delivery date before you check out. For all other products, we'll let you know that we'll be in touch by phone or text message to arrange a delivery date.

Deliveries may be made between 8am and 6pm.

When can I collect my Click + Collect order?

If you order before 7pm Monday to Friday or 4pm Saturday and Sunday, your Click + Collect order will be available from 1pm the next day in your chosen store.

Please note that we have some stores where your order will take two days to be ready and can then be collected after 6pm (this includes stores in Northern Ireland and on the Isle of Man, please see www.diy.com/click-collect for the full list).

Find out more about when your order will be ready for collection on our Click + Collect page on diy.com/click-collect

If you don't collect your order straightaway, we'll hold it in store for you for 7 days. If it's not been collected after 7 days, one of our team will be in contact with you.

Where do I collect my Click + Collect order from?

Your Click + Collect order will be available at the Click + Collect point in your chosen store. Look for the Click + Collect signs in the checkout area.

About our products

All products are subject to availability.

All prices are correct at time of going to press and may be subject to change. Whilst we try to ensure accurate colour representation, please be aware that the photographic process may sometimes alter colours. Some items in our photographs are included for display purposes and are not necessarily intended to be installed as shown with regard to proximity. Please refer to the instructions supplied with your product before installation. A summary of this price guide is available in Braille, large print or on audio cassette. Please ask at your local store for more details.

Finance

Open a FlexiPlan credit account and take control of the way you pay for your B&Q purchases. Start by tailoring your repayments, then look after your account online. Simple. Please see diy.com/flexiplan for more information or speak to a colleague in store. Credit available on purchases between £75 – £25000. **17.9% APR representative.** Interest free options available on purchases over £1,000. Terms and conditions apply. Availability of credit is subject to status. **B&Q Limited acts as a credit broker and not as a lender and offers credit products from more than one lender. The credit advertised here is provided by Creation Consumer Finance Ltd.**

Doing your bit

The UK's Waste Electrical and Electronic Equipment (WEEE) regulation aims to ensure the waste of electrical and electronic equipment is disposed of in an environmentally friendly way. You can take back any unwanted small electrical products, or if you've purchased a larger, like-for-like product from us, to a B&Q store free of charge. Where you've purchased a large like-for-like electrical product from us within 28 days, we can collect it for a fee per item by calling 0333 014 3529. Visit diy.com for more details.

Returns policy

Please keep your receipt for anything you buy from us. It'll ensure we can help you if you need to bring something back.

If you return a product unused, with the original receipt within 90 days of purchase (or delivery where applicable) we'll exchange the product or issue a refund based on the original method of payment. For purchases made by debit/credit card, the same card must be used to process the refund. B&Q customer sales forms are an acceptable form of receipt.

Products that have been cut, made to measure or mixed to your requirements cannot be exchanged or refunded.

Your consumer rights are not affected

If the product you purchase is faulty, or not as described, we may offer an exchange, refund or repair as appropriate, in accordance with your consumer rights.

Ways to return your items

In the first instance, return via home delivery or diy.com

Contact us on 0333 014 3357.

Lines are open 8am–8pm Monday to Saturday and 10am–4pm Sunday.

Email us at home.delivery@b-and-q.co.uk

Write to us at B&Q Customer Services Centre, North Avenue, Clydebank, West Dunbartonshire, G81 2NT.

Alternatively, return your items to your local B&Q store

You'll need to take the product, your receipt/sales advice and the debit/credit card you used for payment with you.
