Be smart with your space

Awkward-shaped rooms can leave you with unused space and empty corners. But, with some planning and the right furniture, you can get the most out of your home's quirks.

Space and storage solutions

Planning

When you're ready to start your project, measure your space. As a guide, we recommend measuring the lengths marked A-H below.

Tricky spaces

Whether you have sloped ceilings or irregular corners, clever modular furniture will put unusual spaces to work.

Floor to ceiling

Maximise unused space above beds and desks with tall cabinets from the Atomia range.

Alcoves

Choose sliding doors that can be customised with internal storage, modular shelving and more.

Good to know

Measure the length, width and height of your room, noting any pipework that's boxed in or under the floor and marking doors and obstacles. Book a free planning appointment at diy.com/customer-support/planning-appointment

Build it your way

1. Choose your cabinets

Cabinets come in a variety of depths, widths and heights, so they'll always fit your space. Stack, connect, and build exactly what you need.

2. Add your internal storage

Divide up your space in a way that suits you. Options include glass-fronted drawers and clever additions like hanging bars and pull-out baskets.

3. Select your external doors and drawers

From sliding doors to full-length mirrors, the external look sets the tone for the rest of the room.

4. Pick your finishing touches

Complete the look with handles and feet that work for you and complement your finished design.

Colour options

Atomia cabinets, shelves and internal drawers are available in three colours. If you're planning on enclosing your storage, fixed and sliding doors come in an extended range of finishes. See page 30 for standard doors and page 32 for sliding doors.

Planning your Atomia storage

Atomia cabinets form the building blocks of your new storage solution. Cabinets come in five heights (each one a multiple of 375mm), three depths and four widths.

Once you've measured your space, start by finding the right depth that works for you. Then choose the width and height of the cabinets according to what you want to store.

Finally, don't forget Atomia cabinets can be wall mounted or freestanding, with or without adjustable feet. When including feet, always remember to include this in any measurements.

What is made to measure?

Made-to-measure sliding doors are designed to fit any opening 1200-2480mm in height and 1100-4550mm in width. We recommend measuring your opening space, height and depth, marked A-E. It's best to take these measurements from 620mm from the back wall to allow space for your storage system. All doors and tracks are manufactured to the smallest measurement.

Ordering and delivery FAQs

Will all of my home delivered items arrive together?

You can select the same delivery date for several products at the checkout at [diy.com](https://www.diy.com). However, items delivered by different partners may arrive separately and at different times.

Do you deliver to my address?

We're currently unable to deliver online orders to the Republic of Ireland, Jersey, Guernsey, Isles of Scilly, Scottish Islands (including Isle of Skye, Isle of Arran, Isle of Colonsay, Isle of Cumbrae, Isle of Jura, Isle of Coll, Isle of Eigg, Isle of Rum, Isle of Canna), Orkney Islands, Outer Hebrides and bfpo addresses.

Bulk products will be delivered to the kerbside outside of your address. You'll be advised at the checkout if this is the case, and you'll be responsible for moving these items onto your property.

Can B&Q let me know the time of my delivery?

Some of our delivery partners may contact you in advance by phone or by text message and may let you know either an estimated arrival time or confirm an am/pm delivery slot. If this applies to your order, we'll let you know before you check out and in your confirmation email.

When will my home delivery order arrive?

For the majority of products on [diy.com](https://www.diy.com), we'll either be able to let you know, or let you choose, a delivery date before you check out. For all other products, we'll let you know that we'll be in touch by phone or text message to arrange a delivery date. Deliveries may be made between 8am and 6pm.

When can I collect my Click + Collect order?

If you order before 7pm Monday to Friday or 4pm Saturday and Sunday, your Click + Collect order will be available from 1pm the next day in your chosen store.

Please note that we have some stores where your order will take two days to be ready and can then be collected after 6pm (this includes stores in Northern Ireland and on the Isle of Man, please see www.diy.com/click-collect for the full list).

Find out more about when your order will be ready for collection on our Click + Collect page on [diy.com/click-collect](https://www.diy.com/click-collect)

If you don't collect your order straightaway, we'll hold it in store for you for 7 days. If it's not been collected after 7 days, one of our team will be in contact with you.

Where do I collect my Click + Collect order from?

Your Click + Collect order will be available at the Click + Collect point in your chosen store. Look for the Click + Collect signs in the checkout area.
