# Make the most of your space

Some things are standard in every bathroom: toilets, basins, a home for towels and the spaces in-between. These planning tips will help you maximise space and minimise everyday stress.

### **Space-saving tips**

### **Mirrors**

All mirrors and rooms are different, but the optimum height to hang a mirror is between 152 and 183cm from the floor.

# Keep towels close by

To keep towels within reach, wall hooks or a radiator placed about 80cm from your bath or shower is ideal.

### **Toilets**

Keep at least 20cm of free space either side of your toilet and roughly 40cm at the front.

# Drying and dressing

Where possible, have a metre squared space between your shower and basin.

### Space to move

Leave a minimum of 70cm of space between your basin and bath or shower edge.

### **Basins**

Place your basin at a comfortable height from the floor. Our basin units have adjustable feet so you can tailor yours to suit.

### Remember

When you're ready to design your bathroom, book a free planning appointment at diy.com/planningappointment

Measure the length, width and height of your room, noting any pipework that's boxed in or under the floor and marking doors and obstacles.

# **New ranges**

If you're looking for the latest styles to refresh your bathroom, here are some of this season's best new products.

### Avela furniture

The light tones of the Avela furniture nod to relaxing spas and Scandinavian style. Its minimal, modular design allows you to easily create your own relaxing set-up at home.

### Veleka furniture

Veleka furniture is clean and simple with heaps of storage space. The gloss finish, available in grey or white, will make any bathroom feel bigger and brighter.

### Aruna furniture

Our best value furniture collection is a fine shortcut to creating the sanctuary of your dreams. Find spacious units and mirrored cabinets perfect for a complete bathroom makeover.

### Ezili and Ahti shower enclosures

Create a new look for your bathroom with one of our on-trend shower enclosures. Choose a smart matt black finish to add that cool industrial edge to your room.

### **Accessories**

Matt black wall-mounted fixings that make a statement, freestanding accessories that can be switched up easily. Find everything you need for an organised shower, a clutter-free basin and permanent home for the toothpaste.

### Independent living accessories

Discover specialist evekare™'s modern range of independent living products. Find grab rails and chairs that make the bathroom a safe environment and daily routines much easier.

## **Furniture collections**

From minimal modular ranges in pale tones to sleek black designs that pop against the simplest of suites, find bathroom furniture suited to every sized space.

### **Duala**

The Duala range combines modern design with an industrial feel. Different basin options allow you to customise your bathroom.

#### Avela

This modular range has a fresh Scandi-inspired feel. Choose units and cabinets to create your own furniture.

### **Imandra**

Modular furniture that can be mixed and matched to suit any bathroom. Choose from a range of colours and sizes.

### Perma

Freestanding furniture with open and hidden storage options, so you can decide whether to show or not to show the essentials.

### Veleka and Aruna

Two new ranges both in a gloss finish. These affordable collections will complement almost any interior style.

### Ladoga

Simple and contemporary, this slim freestanding furniture is ideal for bathrooms where space is key.

### Other ranges

Discover versatile collections that tick all the boxes, such as Ardesio, Chadleigh and Nantua.

### Santini and Marletti

Create your bespoke bathroom with fitted furniture. Choose from a range of colours, finishes, handles and worktops.

### Duala

Open up your bathroom with the Duala basin and stand. Their cool, early modern designs are ready for you to accessorise and make your own.

Home delivery only.

- Fit the basin directly to the wall, or pair with the Duala stand
- Stand designed with towel rail
- Basin also compatible with Imandra and Perma furniture.

## **Toilet and basin suites**

Whether you're planning a spa-inspired en suite or an impressive cloakroom, find a toilet and basin suite that fits your interior dreams.

Close coupled

Available on some models with the back of the pan flush against the wall, eliminating any awkward crevices and making cleaning easier.

Wall hung

Make a bathroom feel more spacious with a wall-hung toilet. Plus, these models can be mounted at any height.

Back to wall

These toilets sit against a partition wall or furniture unit with a concealed cistern.

Space saving

Corner or short projection toilets have a smaller footprint than standard types, so are perfect for maximising space.

Comfort height

Great for taller users or those who struggle with mobility, these high-rise toilets are designed with comfort in mind.

Basin tap and waste sold separately.

# Pure Freude an Wasser. GROHE GROHE

All GROHE toilets are rimless for easy cleaning.

GROHE Euro and Sensia toilets come with powerful triple vortex flush for a better clean.

#### **GROHE** technology

There are two main categories of toilets: wall hung and floor standing.

Wall-hung toilets are mounted on the wall, with the cistern concealed inside the wall and just the bowl protruding, whereas standard toilets are mounted to the floor.

In the bathroom, space and hygiene are the most valuable commodities, and GROHE's high-tech bathroom solutions are proof that even small items can have a big impact.

GROHE won Red Dot<sup>†</sup> sanitary brand of the year in 2019, dedicated to providing innovative water products.

# **Baths**

# Freestanding baths

If you have room for one, a freestanding bath can be a real centrepiece in a bathroom.

There's something quite indulgent about dissolving into the bubbles of a standalone tub.

# **Corner baths**

Corner baths can be tucked neatly into corners if you're lacking on wall space. They still provide lots of room so there's no compromise on comfort.

# Straight baths

The most popular bath shape - it'll fit in the most compact of spaces. Available in both double and single-ended options and in a range of traditional and contemporary styles.

# **Shower baths**

Shower baths cleverly provide the relaxation of a soak in the tub with the more practical side of a quick shower. Find L and P shapes to suit your space.

# Accessible baths

These baths are designed with a low profile and anti-slip base. The easy-access door makes it a practical choice for those with limited mobility.

# **Shower baths**

These come in L and P shapes, providing a large showering area as well as generous bathing space.

Home delivery only.

# **Taps**

Taps may seem like small details in a bathroom, but they can really switch up the overall look of a basin or bath. From traditional to contemporary, choose a design that maximises the potential flow rate of your water system and looks great while doing so.

# **Basin mixer**

This compact design mixes hot and cold water. Available with a normal aerator, blade stream, shower-effect or waterfall spout.

# **Basin taps**

Pillar tap pairs have a classic look and feel, but are now designed in more modern shapes too. They give you excellent control of achieving your desired water temperature.

# **Bath taps**

From modern filler taps to more traditional pillar pairs, bath taps can be a stylish statement as well as a finishing touch to your tub.

# **Bath mixer**

An elegant and popular choice, bath mixer taps require two tap holes for the hot and cold handles, which then mix in the middle at the spout.

# Bath shower mixer

Enjoy the versatility of a traditional bath tap alongside a shower handset. Perfect if you're limited on space.

# Remember

A tap aerator adds oxygen to the flow, increasing the pressure and reducing the amount of water you need to use. This nifty attachment simply fits into the tap to help save water and save you money.

# Cavally

Coordinate the sleek Cavally taps with your style. Choose from brushed stainless steel, on-trend black or classic chrome finishes. Enjoy expertly designed features like the water-saving regulator, and a quality assurance with a 10-year guarantee\*.

Choose a Cavally matt black or brushed stainless steel tap for a modern bathroom look. Available on selected taps. Includes a fitting tool making it easier to install. Easy-clean nozzles to remove limescale. Thermostatic mixer includes cool-touch technology. Cavally tall basin mixer Also available in mini and large sizes. ### Remember

Stand pipes are used for freestanding baths without tap holes. A stand pipe connects with the plumbing under the floor and takes the hot and cold water up to the taps that are fitted on top.

# **Showers**

A shower is a pick-me-up in the morning and washes away the little stresses come evening. Find one that boosts the overall look of your space and provides the best showering experience.

# Electric showers

An electric shower connects to the cold water supply which is then warmed up by an internal heating element as water passes through. Provides instant hot water on demand.

# Power showers

A power shower has a built-in electric pump to boost the flow rate. Ideal for low pressure systems.

# Manual mixer showers

A manual mixer shower connects to the hot and cold water supplies and then mixes the water to your selected temperature. Delivers a higher flow rate than an electric shower.

# Thermostatic showers

A thermostatic mixer shower offers a consistent showering temperature, even when a tap is on elsewhere in your home.

### **Digital showers**

A digital shower offers you the ultimate control. Set your ideal temperature and flow rate to make it perfect every time.

See div.com for the digital showers range.

### Remember

Before choosing a shower, understanding your water system is key. If you have limited hot water supply, electric showers are suitable, whereas mixer showers are compatible with high pressure systems.

# **Shower enclosures**

There are many shower solutions to choose from, but understanding where your shower is going to go first will really help with your decision. Make sure you consider the space needed for the door opening, as well as features like towel rails or any existing pipes, lighting and vents.

#### Quadrant

Great for smaller bathrooms. The curved corner style works with most bathroom designs and doesn't compromise on showering room either.

#### Square

Modern and stylish, a square enclosure fits into most bathrooms and has more choice when it comes to doors and frames.

### Rectangular

If you have more space to play with, a rectangular-shaped enclosure offers more showering room and is more of a statement choice.

#### Walk-in

Walk-in showers are simple, luxurious and undeniably practical. Unlike conventional styles, they have no runners or hinges to trap dirt and grime.

#### Wetroom

For a spa-like look and feel, a wetroom is a watertight option that's roomy and luxurious.

# Wetrooms

Wetrooms are not only highly desirable for their minimalist style, but because they make a bathroom fully accessible. Designed with proven watertight technology, find kits and screens from wetroom specialist Aquadry to create your own.

Home delivery only.

#### Remember

All Aquadry wetroom kits include an installation kit.

#### 1. Choose a level access or raised wetzone

#### Level access

Designed for installations where the shower waste can be fitted between floor joists to give a completely flat wetroom floor.

# Curved walk-in shower screen

H2040 x W1050mm 5060164652588

#### £481

This curved screen pivots from the wall on installation, allowing you to fix to your desired position with a support bar. Suitable for level access installation only.

#### 3. Complete the look

To create a fully waterproof wetroom we recommend boarding your walls and floors with the Aquadry waterproof backer boards.

# Finishing touches

It's the little things that make a real difference – the warm towel, the shampoo bottle within easy reach and lighting that sets the mood for pampering. Here's all you need to enhance your bathroom experience.

#### **Accessories**

Find the accessories you need in a style that suits your room. Think hooks, shelves, towel rails and more, all designed for the bathroom environment.

# Independent living

Make life easier with independent living accessories, designed with comfort and independence in mind.

#### **Toilet seats**

From traditional white or solid wood to something more colourful, there are toilet seats for every décor choice.

#### **Towel warmers**

A warm towel after a soak is one of life's little pleasures. Choose between plumbed, electric or dual fuel towel warmers.

Lighting

Set the mood for perfect relaxation with stylish lighting that's safe for the bathroom.

# Walls and flooring

Transform your space (and the cleaning time) by decorating your bathroom with tiles in trend-led designs.

### Koros wall-mounted accessories

Mix and match these simplistically designed accessories to suit your needs. Add shelves and hooks to store your toiletries and neatly hang towels. Available in chrome, white and black.

# Towel warmers

Add warmth and luxury to your bathroom space with a towel warmer. Choose from electric, plumbed or dual fuel.

# Calculating your — power requirements

To calculate the power required for your towel warmer, count 125W for every m2 in your bathroom.

### Plumbed towel warmers

These models are heated by the central heating system, so will dry towels while keeping the room warm. They don't operate when the heating is switched off.

# Dual fuel towel warmers

Dual fuel towel warmers are connected to the central heating system, but can also be powered by electricity with use of a heating element.

# **Bathroom lighting**

Bathroom lighting transforms a bleak room into a relaxing sanctuary, but it should also be safe to use in a wet environment. That's why there are regulations which require all bathroom lighting adheres to certain IP (Ingress Protection) ratings.

A bathroom is made up of different zones, so the distance from the water source will determine the type of lighting allowed.

### Lighting zones explained

#### Zone 0

Inside the bath or shower. Must be IP67 rated.

#### Zone 1

The area above the bath or shower to a height of 2.25m from the floor. Must be a minimum of IP44 rated or (IP45 if exposed to water jets). IP65 rating is recommended.

#### Zone 2

The area 0.6m outside the perimeter of the bath and to a height of 2.25m from the floor. Must be a minimum of IP44 rated.

#### Other zones

Anywhere outside zones 0, 1 and 2. No special requirements, however, it's recommended any light fittings in other areas should have a rating of at least IP20.

A 30mA RCD must be used. All new and modified electrical installations must comply with the latest IET Wiring Regulations (BS7671) and bathroom lighting products must be installed in accordance with local Building Regulations. If you are in any doubt, contact a qualified electrician.

#### Terms and conditions

#### Ordering and delivery

#### Available for home delivery

Selected items are available to order for delivery direct to your home. Available for selected locations, restrictions apply. Delivery charges may apply. See div.com for further details. When buying at div.com we'll tell you the delivery time during the checkout. If ordering in store please ask.

#### Store delivery service

If you're not able to get your items home from store why not use our store delivery service? This service enables you to have your items delivered to the ground floor of choice in your home. Ask your local store for details on their delivery area. Charges may apply.

#### **Ordering & delivery FAQs**

#### Will all of my home delivered items arrive together?

You can select the same delivery date for several products at the checkout at diy.com. However, items delivered by different partners may arrive separately and at different times.

#### Do you deliver to my address?

We're currently unable to deliver online orders to the Republic of Ireland, Jersey. Guernsey, Isles of Scilly, Scottish Islands (including Isle of Skye, Isle of Arran, Isle of Colonsay, Isle of Cumbrae, Isle of Jura, Isle of Coll, Isle of Eigg, Isle of Rhum, Isle of Canna), Orkney Islands, Outer Hebrides and BFPO addresses.

Bulk products will be delivered to the kerbside outside of your address. You'll be advised at the checkout if this is the case. and you'll be responsible for moving these items onto your property.

#### Can B&Q let me know the time of my delivery?

Some of our delivery partners may contact you in advance by phone or by text message and may let you know either an estimated arrival time or confirm an am/pm delivery slot. If this applies to your order, we'll let you know before you check out and in your confirmation email.

#### When will my home delivery order arrive?

For the majority of products on diy.com, we'll either be able to let you know, or let you choose, a delivery date before you check out. For all other products, we'll let you know that we'll be in touch by phone or text message to arrange a delivery date.

Deliveries may be made between 8am and 6pm.

#### When can I collect my Click + Collect order?

If you order before 7pm Monday to Friday or 4pm Saturday and Sunday, your Click -Collect order will be available from 1pm the next day in your chosen store.

Please note that we have some stores where your order will take two days to be ready and can then be collected after 6pm (this includes stores in Northern Ireland and on the Isle of Man, please see www.diy.com/click-collect for the full list).

Find out more about when your order will be ready for collection on our Click + Collect page on diy.com/click-collect

If you don't collect your order straightaway, we'll hold it in store for you for 7 days. If it's not been collected after 7 days, one of our team will be in contact with you.

#### Where do I collect my Click + Collect order from?

Your Click + Collect order will be available at the Click + Collect point in your chosen store. Look for the Click + Collect signs in the checkout area.

#### **About our products**

All products are subject to availability.

All prices are correct at time of going to press and may be subject to change. Whilst we try to ensure accurate colour representation, please be aware that the photographic process may sometimes alter colours. Some items in our photographs are included for display purposes and are not necessarily intended to be installed as shown with regard to proximity. Please refer to the instructions supplied with your product before installation. A summary of this price guide is available in Braille, large print or on audio cassette. Please ask at your local store for more details.

#### **Finance**

At B&Q we have a number of different finance options to suit your needs which could help you fund your purchase.

To see how our finance products could make your dream project more affordable, just visit your local store and ask a member of staff for details or visit diy.com/finances

GoodHome is our product brand. It is a seal of quality, innovation and excellence and a number of existing products branded Cooke & Lewis have garnered great customer feedback and passed all our assessment criteria. They have therefore won the right to move under the GoodHome brand but are still being supplied under their original Cooke & Lewis packaging for a short period because true to our sustainable ambition, we do not believe in throwing away perfectly good packaging.
