# Make the most of your space

---

When designing your bathroom, it's important to think about the kind of space you have, and how many people will be using it. Here's a look at the three most common types of bathrooms to help you get started.

**For more ideas and inspiration visit [diy.ie/bathrooms](https://diy.ie/bathrooms)**

## En suite

---

En suites are often smaller than main bathrooms, so it's important to make the most of your available space. A shower enclosure can be a great way to save space here, and can even act as a statement piece in your overall décor.

## Cloakroom

Cloakrooms are all about maximising space. Keep as much space free as possible by choosing a compact basin and a back to wall or wall-hung toilet, and opt for a light colour scheme to keep it feeling bright and airy.

## Family bathroom

Family bathrooms are usually the biggest bathroom in the house, so there's often more space to get creative with things like statement baths and bold tiles. It's also a good place to add storage, such as cabinets and open shelving.

# Furniture

---

Bathroom furniture is a great way to showcase your personality and style. Explore a wide range of vanity units, then customise them to your taste with complementing worktops, basins, cabinets and mirrors.

Modular furniture	14
Fitted furniture	34
Freestanding furniture	44
Worktops and basins	18
Cabinets	58
Mirrors	61

## Modular furniture

Easy to personalise and assemble, modular furniture can be adapted to fit into all sorts of spaces. Mix and match with doors that hide toiletries and shelves for things you want to show. Plus, find stylish basins to complement our vanity units.

## Fitted furniture

Fitted together as a set, these units can be attached to the floor and wall, making smart use of every inch. Pipework can be hidden within cabinets to reduce visual clutter, while tall and shallow options make the most of small rooms.

## Freestanding furniture

Freestanding furniture can be placed exactly where it's needed (and switched up when you want a room change). Organise your essentials with a mix of wall-mounted and floor-standing units, available in modern and traditional styles.

## Worktops & basins

Finish your furniture with a complementing worktop, then find the perfect countertop or semi-recessed basin to match. Or, for a more seamless finish, skip the worktop and add a sleek vanity basin.

## Cabinets

The perfect way to keep your bathroom tidy. As well as housing all your essentials, bathroom cabinets can also double as a mirror, or even as an additional light. For ultimate flexibility, choose a style with adjustable shelves.

## Mirrors

Mirrors are a bathroom essential, but they can also act as a statement piece in your décor. From bold framed mirrors to warming illuminated styles, find the perfect mirror for your morning close-up.

# GoodHome Imandra modular furniture

## Toilet & basin suites

Find the perfect suite for your space. Explore our collection of wall-hung, back to wall and traditional close-coupled toilets, along with a wide range of complementary basins. Plus, discover compact cloakroom styles for those smaller spaces.

## Cisterns, frames & flush plates

Designed for use with wall-hung toilets, cisterns and frames work to conceal water supply and waste and give your toilet a strong, sturdy foundation. Typically hidden behind a wall, these space-saving systems give your bathroom a neat, streamlined look.

## Bidets & trigger sprays

Providing hygienic aftercare, bidets are a great way to add a touch of European style to your bathroom suite. Choose from a range of wall-hung and back to wall bidets, along with a selection of handy trigger spray sets.

## Cloakroom toilets & basins

Make the most out of smaller bathrooms with our range of cloakroom toilets and basins. Thanks to their compact design, these space-saving styles don't project too far from the wall, leaving plenty of space to move around.

## GoodHome Winam suite

### Close-coupled toilets

The most common type of toilet, where the cistern sits directly on top of a floor-standing pan.

**Open-back close-coupled rimless toilet** W375 x H750 x D650mm. Rimless design reduces areas where bacteria gather. Eco-friendly 6/3L dual flush. Soft-close, quick-release seat. 5059340223377 **€193**.

**Closed-back close-coupled rimless toilet** W370 x H830 x D775mm. White 5059340155999\* **€293**.

### Why choose a rimless design?

No recess for dirt, bacteria and germs to accumulate.

The flush forces water around the bowl, removing dirt thoroughly.

The exposed pan is easier to clean than standard rim toilets.

# Independent living

---

Designed to offer freedom and reduce the risk of accidents, our independent living range helps make bathrooms more accessible, supporting independent living.

Toilets	96
Basins	97
Baths	98
Showers packs	101
Accessories	102

## Toilets

Explore our range of comfort height toilets. Taller than standard styles, these raised toilets are easy and comfortable to use, particularly for those with reduced mobility.

## Basins

Accessible basins usually come with either a semi-pedestal or no pedestal, allowing them to be fitted at the optimal height and leaving plenty of space for access.

## Baths

Designed with reduced mobility in mind, our accessible baths come with additional safety features, including a non-slip base and a leakproof door for easy access.

## Shower packs

Shower packs help make showers more accessible for a variety of users. Integrating into an existing shower space, these kits can include grab rails, detachable seats and easy-to-use showers.

## Accessories

From raised toilet seats to shower chairs and grab rails, Evekare™ accessories are designed to help people navigate the bathroom safely and independently.

# Toilets

Designed for comfortable use, our range of comfort height toilets are taller than standard toilets, making them ideal for those with limited mobility.

# Bathing

---

Whether it's a luxurious freestanding design or a combined shower bath style, baths are a relaxing addition to any bathroom. Choose from a wide range of shapes, styles and sizes to find the one that best suits your space.

Freestanding	106
Home spa systems	110
Space-saving	111
Shower baths	112
Double-ended	114
Straight	117

## Freestanding

Freestanding baths give your bathroom a feeling of real luxury. They can be sleek and modern or have a more traditional feel, such as those with metal feet or a roll-top design.

## Home spa systems

Create a spa experience at home by pairing one of our whirlpool-compatible baths with a relaxing home spa system.

## Space-saving

For smaller spaces, discover our range of space-saving baths. Stylish and compact, these baths fit neatly into your bathroom without compromising on comfort.

## Shower baths

Instead of having a separate shower enclosure and bath, these two-in-one units give you the best of both worlds, combining a large showering area and generous bathing space.

## Double-ended

With two sloping sides and centrally located taps and waste, double-ended baths are often more spacious than other styles, giving you plenty of space to unwind.

## Straight

Available in a range of lengths and widths, straight baths are the most common style of bath, suitable for almost any space.

## Freestanding baths

Create a gorgeous focal point and a luxurious place to relax and unwind. Choose from a range of traditional roll-top baths and sleek modern styles to complement your sanctuary. **Home delivery only.**

## Supercast baths

- 100% cast acrylic
- Easy-to-clean with a high-gloss finish
- Improved insulation helps keep water hotter for longer
- Durable and hard-wearing, supercast provides similar strength to a cast iron bath, but with the benefits of acrylic
- Fully encapsulated baseboard for added strength and insulating properties.

**Panels for Shaftesbury, Sovana and Arezzo available separately at [diy.ie](https://diy.ie)**

# Taps

---

Although they might seem like a small part of your bathroom, taps form a key part of your overall décor. From versatile and modern mixers to standout freestanding styles, here's a closer look at the different types of bathroom taps.

## Basin mixers and bath fillers

---

Basin and bath mixer taps blend hot and cold water, allowing you to control the temperature and flow of water through a single spout. Choose from a range of styles, including tall and mini basin mixers.

## Basin and bath taps

---

With separate taps for hot and cold water, basin taps give a more traditional feel to your bathroom.

Also available as bath taps, these styles often include cross heads for a truly classic look.

## Bath shower mixers

---

These all-in-one taps mix hot and cold water, flowing out of either a mixer tap or integrated shower head. With no need for a separate shower, they're an easy way to add a showering option to your bath.

## Freestanding taps

---

A perfect pairing for freestanding baths, these taps stand directly on the floor and can be positioned wherever there's an available water feed, creating a stunning focal point in your bathroom.

Home delivery only.

## Minimalist design

Subtle curves and edges give these taps a minimalist finish, with an ergonomic handle design for a comfortable grip.

# Showers

---

Create a relaxing showering experience with our range of electric, digital, mixer and power showers. Available in a selection of classic and contemporary finishes, there's a style to suit every bathroom.

Mixer showers	142
Digital showers	148
Electric showers	150
Power showers	153

## Mixer showers

Affordable and easy to use, mixer showers take water from your hot and cold pipes, blending it together to create your desired temperature.

## Digital showers

With a range of smart features, such as voice activation and customisable temperature presets, digital showers make it easy to create the perfect shower, every time.

## Electric showers

Connecting to the mains cold water supply, these energy-efficient showers draw water over an in-built heating element, giving you hot water on demand.

## Power showers

Perfect for low pressure systems, power showers include a pump to boost your water pressure, creating a more luxurious experience.

## Mixer showers

Blending water from your hot and cold pipes, mixer showers make it easy to find the perfect temperature. For a consistent showering experience, choose a thermostatic mixer shower, which won't change temperature when someone else runs a tap.

# Digital showers

Set your shower to perfect. Hit the ideal temperature and flow, then repeat. Options include Wi-Fi connectivity, voice activation and app controls. **Home delivery only.**

## Why go digital?

- Digital thermostat gives instant temperature control
- Provides a steady, constant water flow
- Easy-to-control temperature settings can be stored for different family members
- Some models include the option of a wireless remote control
- High and low pressure options available to suit your plumbing system, without upgrading your boiler
- Non-pumped suits combi boilers with a high pressure system, whereas pumped suits all systems, providing extra pressure.

## Water pressure

### Gravity system

Features a cold water tank in the loft and a hot water cylinder in the airing cupboard. The greater the vertical distance between the tank and shower head, the better the performance.

### High pressure system

Water is provided via a high pressure hot water cylinder (usually in an airing cupboard). An expansion tank is often visible on top of the cylinder.

### Combination system

Often referred to as a 'combi', the boiler is usually located in the kitchen and fires up the moment a hot tap is switched on.

### Good to know

**Electric and power showers should always be installed by professionals.**

If you're installing a new electric or power shower, it must be installed by a Part P-certified plumber or electrician.

A qualified professional will be able to install, upgrade or check the wiring, to make sure that your new shower works safely.

# Shower panels

---

Create the perfect shower with our selection of shower panels, available in a range of finishes.

## Shower panels

Create a stunning feature wall, with our stylish shower panels, they offer an affordable, fuss-free alternative to individual tiles, giving you a seamless finish for a fraction of the price.

# Splashwall™ shower panels

Splashwall™ panels are the ideal alternative to tiles, making it quick and easy to transform your bathroom. Panels can be fitted onto virtually any surface for a watertight finish. Choose from four product ranges, all backed by a 15-year guarantee.<sup>†</sup> **Home delivery only.**

## What is a shower panel?

Shower panels are a simple and innovative way to transform your bathroom. Splashwall™ large format panels are typically 2420mm high and 1200mm wide.

Each panel is securely fitted to the wall using adhesive and creates a watertight finish using silicone sealant and trims (where necessary).

Unlike tiles, these panels don't require a specialist fitter and can be installed in a matter of hours. Plus, aftercare is minimal as there's no grout to keep clean. Panels can simply be wiped down with a non-abrasive cloth.

### Postformed

Postformed panels give you a decorative finish on the end panel, meaning you don't need to trim to complete the panel edges.

### Tongue and groove

Tongue and groove panels allow numerous panels to slot together along a wall to create a seamless finish.

- Wide choice of designs
- Easy to clean
- Easily applied to bathroom walls
- Can be applied over existing tiles<sup>††</sup>
- Requires limited prep and aftercare
- No grouting required.

<sup>†</sup>Visit [splashwall.co.uk/guarantee](https://splashwall.co.uk/guarantee) for Splashwall™ guarantee terms and conditions. Your legal rights are not affected.

<sup>††</sup>To install Splashwall™ acrylic panels over tiles, you will need to apply a plywood or PDF board over the tiles first.

Influenced by natural materials, the Splashwall™ laminate range has all the charm and beauty of the real thing. From marble and stone effects to unique pine styles, find the perfect design to complement your bathroom.

## Wall-mounted accessories

Easily fixed to your wall, these accessories are great for stashing your essentials, hanging towels and keeping your bathroom free from clutter.

## Freestanding accessories

From soap dishes to toilet brush holders, freestanding accessories can be used to add beautiful accents to your bathroom, ready to swap out when you fancy a change.

## Towel warmers

As well as keeping your towels dry, towel warmers heat your bathroom to keep it warm and cosy year-round. Choose from electric or plumbed designs in a range of finishes.

## Bathroom lighting

Light up your bathroom with our range of IP-rated lighting, including spotlights, ceiling lamps and wall lamps in a selection of styles.

## Bathroom floors

Whether it's simple or striking, find the perfect flooring to complete your bathroom, with a water-resistant design to keep it looking great for years to come.

## Bathroom walls

Create a standout feature wall with our range of geometric and mosaic designs, or keep things simple with classic coloured tiles.

## Wall-mounted accessories

Wall-mounted accessories are an easy, stylish way to keep your bathroom tidy. Use shelves and baskets to keep your toiletries in easy reach, and add hooks or rails to hang your towels neatly.

## Bathroom lighting

Bathroom lighting must adhere to certain IP (ingress protection) ratings, which lay out the required level of protection against splashes and dirt. See below for the zone types and how water resistant a light fitting should be.

### Safety first

IP67

#### Zone 0

Inside the bath or shower. Must be IP67 rated.

IP65

#### Zone 1

The area above the bath or shower to a height of 2.25m from the floor. Must be a minimum of IP44 rated (or IP45 if exposed to water jets). IP65 rating is recommended.

IP44

#### Zone 2

The area 0.6m outside the perimeter of the bath and to a height of 2.25m from the floor. Must be a minimum of IP44 rated.

IP20

#### Other zones

Anywhere outside zones 0, 1 and 2. No special requirements, however, it's recommended any light fittings in other areas should have a rating of at least IP20.

A 30mA RCD must be used. All new and modified electrical installations must comply with the latest IET Wiring Regulations (BS7671) and bathroom lighting products must be installed in accordance with local building regulations. If in doubt, contact a qualified electrician.

# Terms and conditions

## Ordering and delivery

### Available for home delivery

Selected items are available to order for delivery direct to your home. Restrictions apply. Delivery charges may apply. See [diy.ie](#) for further details. When buying at [diy.ie](#) we'll tell you the delivery time during the checkout. If ordering in store please ask.

### Store delivery service

If you're not able to get your items home from store why not use our store delivery service? This service enables you to have your items delivered to the ground floor of choice in your home. Ask your local store for details on their delivery area. Charges may apply.

## Ordering and delivery FAQs

### Will all of my home delivered items arrive together?

If you are ordering more than one item, please be aware that items may not be delivered together. Check the details provided at the checkout.

If ordering multiple items, please be aware that these may be grouped together for a single delivery. The delivery date will be based on the product with the longest timescale shown.

If your order contains large delivery items, as well as standard delivery items, you'll be charged for large delivery. If your order contains bulk delivery items, as well as standard and/or large delivery items, you'll be charged for bulk delivery. Your order will only have one delivery charge.

### Do you deliver to my address?

We're unable to deliver online orders from [diy.ie](#) outside of the Republic of Ireland. Bulk delivery is currently only available in Dublin and the surrounding area, see [diy.ie/customer-support/delivery](#) for list of areas. Bulk products will be delivered to the kerbside outside of your address. You'll be advised at the checkout if this is the case, and you'll be responsible for moving these items onto your property.

### Can B&Q let me know the time of my delivery?

Some of our delivery partners may contact you in advance by phone or by text message and may let you know either an estimated arrival time or confirm an am/pm delivery slot. If this applies to your order, we'll let you know in your confirmation email.

### When will my home delivery order arrive?

For the majority of products on [diy.ie](#), we'll be able to advise of your delivery date in your order confirmation email. For all other products, we'll let you know that we'll be in touch by phone or text message to arrange a delivery date. Deliveries may be made between 8am and 6pm.

### When can I collect my Click + Collect order?

Once you've placed your order we'll tell you what time your order will be available to collect from.

Find out more about when your order will be ready for collection on our Click + Collect page on [diy.ie/customer-support/click-collect](#)

If you don't collect your order straightaway, we'll hold it in store for you for 7 days. If it's not been collected after 7 days, we'll automatically return it and process a refund.

### Where do I collect my Click + Collect order from?

Your Click + Collect order will be available at the Click + Collect point in your chosen store. Look for the Click + Collect signs in the checkout area.

## Finance

Fees, Terms and Conditions and minimum credit criteria apply. Subject to credit assessment and approval, humm is underwritten by FlexiFi Europe Limited, Company Number: 600124. Flexifi Europe Limited, trading as humm is regulated by the Central Bank of Ireland. See [humm.ie](#) for more details.

## Doing your bit

Waste Electrical and Electronic Equipment (WEEE) and waste batteries must never be placed in any of your household wheellie bins. WEEE is taken back free of charge at electrical retail outlets on a one-on-one like-for-like basis. There is a container for small waste batteries in your local store. Local authority civic amenity facilities also take back WEEE and waste batteries free of charge. WEEE and waste batteries recycling is free.

## Returns policy

Please keep your receipt for anything you buy from us. It'll ensure we can help you if you need to bring something back.

If you return a product unused, with the original receipt within 45 days of purchase (or delivery where applicable) we'll exchange the product or issue a refund based on the original method of payment. For purchases made by debit/credit card, the same card must be used to process the refund. B&Q customer sales forms are an acceptable form of receipt.

Products that have been cut, made to measure or mixed to your requirements cannot be exchanged or refunded.

### Your consumer rights are not affected

If the product you purchase is faulty, or not as described, we may offer an exchange, refund or repair as appropriate, in accordance with your consumer rights.

### Ways to return your items

In the first instance, return via home delivery or [diy.ie](#)

GoodHome is our product brand. It is a seal of quality, innovation and excellence. A number of existing products branded Cooke & Lewis have garnered great customer feedback and passed all our assessment criteria. They have therefore won the right to move under the GoodHome brand, but are still being supplied under their original Cooke & Lewis packaging for a short period. This is because, true to our sustainable ambition, we do not believe in throwing away perfectly good packaging.
