# Know your space

---

When designing your bathroom, it's important to think about the kind of space you have, and how many people will be using it. Here's a look at the four most common types of bathrooms to help you get started.

For more ideas and inspiration visit [diy.com/bathrooms](https://diy.com/bathrooms)

## Cloakroom

---

Cloakrooms are all about maximising space. Keep as much space free as possible by choosing a compact basin and a back to wall or wall-hung toilet, and opt for a light colour scheme to keep it feeling bright and airy.

## En suite

---

En suites are often smaller than main bathrooms, so it's important to make the most of your available space. A shower enclosure can be a great way to save space here, and can even act as a statement piece in your overall décor.

## Wetroom

Whether it's a family space or an en suite, wetrooms are a stylish way to create a multi-purpose bathroom. Without the need for bulky shower units, they're a great option for smaller bathrooms. They're also fully accessible, making them ideal for people with limited mobility.

## Family bathroom

Family bathrooms are usually the biggest bathroom in the house, so there's often more space to get creative with things like statement baths and bold tiles. It's also a good place to add storage, such as cabinets and open shelving.

# Furniture

---

Bathroom furniture is a great way to showcase your personality and style. Explore a wide range of vanity units, then customise them to your taste with complementing worktops, basins, cabinets and mirrors.

## Modular furniture

16

Easy to personalise and assemble, modular furniture can be adapted to fit into all sorts of spaces. Mix and match with doors that hide toiletries and shelves for things you want to show. Plus, find stylish basins to perfectly complement our vanity units.

## Fitted furniture

36

Fitted together as a set, these units can be attached to the floor and wall, making smart use of every inch. Pipework can be hidden within cabinets to reduce visual clutter, while tall and shallow options make the most of small rooms.

## Freestanding furniture

46

Freestanding furniture can be placed exactly where it's needed (and switched up when you want a room change). Organise your essentials with a mix of wall-mounted and floor-standing units, available in modern and traditional styles.

## Worktops and basins

# Suites, toilets and basins

---

Whether it's a compact cloakroom or a large family space, finish your bathroom with a suite that suits your style, from brands including GoodHome, Ideal Standard, Vitra and GROHE.

## Toilet and basin suites

80

Find the perfect suite for your space. Explore our collection of wall-hung, back to wall and traditional close-coupled toilets, along with a wide range of complementary basins. Plus, discover compact cloakroom styles for those smaller spaces.

## Cisterns, frames and flush plates

104

Designed for use with wall-hung toilets, cisterns and frames work to conceal water supply and waste and give your toilet a strong, sturdy foundation. Typically hidden behind a wall, these space-saving systems give your bathroom a neat, streamlined look.

## Bidets and trigger sprays

106

Providing hygienic aftercare, bidets are a great way to add a touch of European style to your bathroom suite. Choose from a range of wall-hung and back to wall bidets, along with a selection of handy trigger spray sets.

## Cloakroom toilets and basins

107

Make the most out of smaller bathrooms with our range of cloakroom toilets and basins. Thanks to their compact design, these space-saving styles don't project too far from the wall, leaving plenty of space to move around.

# Independent living

---

Designed to offer freedom and reduce the risk of accidents, our independent living range helps make bathrooms more accessible, supporting independent living.

## Toilets

110

Explore our range of comfort height toilets. Taller than standard styles, these raised toilets are easy and comfortable to use, particularly for those with reduced mobility.

## Basins

111

Accessible basins usually come with either a semi-pedestal or no pedestal, allowing them to be fitted at the optimal height and leaving plenty of space for access.

## Baths

112

Designed with reduced mobility in mind, our accessible baths come with additional safety features, including a non-slip base and a leakproof door for easy access.

## Shower packs

115

Shower packs help make showers more accessible for a variety of users. Integrating into an existing shower space, these kits can include grab rails, detachable seats and easy-to-use showers.

## Accessories

116

From raised toilet seats to shower chairs and grab rails, Evekare™ accessories are designed to help people navigate the bathroom safely and independently.

## Why choose a Concept Freedom bath?

Enjoy a bath that has been thoughtfully designed in every detail.

- Low height to make getting in and out easier
- Foot ledge helps prevent slipping while in the bath
- Perfectly curved backrest offers comfort and support
- A clicker waste for ease when emptying the bath
- Double the amount of reinforcement than a standard bath
- Add a luxury gel headrest for ultimate relaxation.

## Shower packs

Whether it's a simple grab rail or a full shower kit, these handy accessories can be added to existing shower spaces to make them easier and safer to use.

## Wetrooms

Wetrooms are a stylish, fully accessible addition to any bathroom. By minimising steps and obstacles, these easy-to-access shower spaces create an open, relaxed area, ideal for people with reduced mobility. They're also a great option for smaller spaces, eliminating the need for bulky shower or bath units.

**See page 208 for our wetroom range.**

## Evekare™ accessories

# Bathing

---

Whether it's a luxurious freestanding design or a combined shower bath style, baths are a relaxing addition to any bathroom. Choose from a wide range of shapes, styles and sizes to find the one that best suits your space.

## Freestanding

120

Freestanding baths give your bathroom a feeling of real luxury. They can be sleek and modern or have a more traditional feel, such as those with metal feet or a roll-top design.

## Home spa systems

128

Create a spa experience at home by pairing one of our whirlpool-compatible baths with a relaxing home spa system.

## Space-saving

129

For smaller spaces, discover our range of space-saving baths. Stylish and compact, these baths fit neatly into your bathroom without compromising on comfort.

## Shower baths

130

Instead of having a separate shower enclosure and bath, these two-in-one units give you the best of both worlds, combining a large showering area and generous bathing space.

## Double-ended

132

With two sloping sides and centrally located taps and waste, double-ended baths are often more spacious than other styles, giving you plenty of space to unwind.

## Straight

134

Available in a range of lengths and widths, straight baths are the most common style of bath, suitable for almost any space.

## Freestanding baths

Create a gorgeous focal point and a luxurious place to relax and unwind. Choose from a range of traditional roll-top baths and sleek modern styles to complement your sanctuary.

Home delivery only.

## Supercast features

- 100% cast acrylic
- Easy-to-clean with a high gloss finish
- Improved insulation helps keep water hotter for longer
- Durable and hard-wearing, supercast provides similar strength to a cast iron bath, but with the benefits of acrylic
- Fully encapsulated baseboard for added strength and insulating properties.

Panels for Shaftesbury, Sovana and Arezzo available separately at [diy.com](https://diy.com)

# Taps

---

Although they might seem like a small part of your bathroom, taps form a key part of your overall décor. From versatile and modern mixers to standout freestanding styles, here's a closer look at the different types of bathroom taps.

## Basin mixers and bath fillers

---

Basin and bath mixer taps blend hot and cold water, allowing you to control the temperature and flow of water through a single spout. Choose from a range of styles and sizes, including tall basin mixers for countertop basins and mini basin mixers.

## Basin and bath taps

---

With separate taps for hot and cold water, basin taps give a more traditional feel to your bathroom.

Also available as bath taps, these styles often include cross heads for a truly classic look.

## Bath shower mixers

---

Bath shower mixers blend hot and cold water to your chosen temperature, flowing out of either a mixer tap or integrated shower head. Without the need for a separate shower, these all-in-one taps are an easy way to add a showering option to your bathing space.

## Freestanding taps

---

A perfect pairing for freestanding baths, these taps stand directly on the floor and can be positioned wherever there's an available water feed, creating a stunning focal point in your bathroom.

# Shower s

---

Create a relaxing showering experience with our range of electric, digital, mixer and power showers. Available in a selection of classic and contemporary finishes, there's a style to suit every bathroom.

## Mixer showers

166

Affordable and easy to use, mixer showers take water from your hot and cold pipes, blending it together to create your desired temperature.

## Digital showers

176

With a range of smart features, such as voice activation and customisable temperature presets, digital showers make it easy to create the perfect shower, every time.

## Electric showers

180

Connecting to the mains cold water supply, these energy-efficient showers draw water over an in-built heating element, giving you hot water on demand.

## Power showers

185

Perfect for low pressure systems, power showers include a pump to boost your water pressure, creating a more luxurious experience.

## Mixer showers

Blending water from your hot and cold pipes, mixer showers make it easy to find the perfect temperature. For a consistent showering experience, choose a thermostatic mixer shower, which won't change temperature when someone else runs a tap.

# Digital showers

Set your shower to perfect. Hit the ideal temperature and flow, then repeat. Options include Wi-Fi connectivity, voice activation and app controls.

Home delivery only.

## Why go digital?

- Digital thermostat gives instant temperature control
- Provides a steady, constant water flow
- Easy-to-control temperature settings can be stored for different family members
- Some models include the option of a wireless remote control
- High and low pressure options available to suit your plumbing system, without upgrading your boiler
- Non-pumped suits combi boilers with a high pressure system, whereas pumped suits all systems, providing extra pressure.

## Water pressure

### Gravity system

Features a cold water tank in the loft and a hot water cylinder in the airing cupboard. The greater the vertical distance between the tank and shower head, the better the performance.

### High pressure system

Water is provided via a high pressure hot water cylinder (usually in an airing cupboard). An expansion tank is often visible on top of the cylinder.

### Combination system

Often referred to as a 'combi', the boiler is usually located in the kitchen and fires up the moment a hot tap is switched on.

# Wetrooms & shower panels

---

Create the perfect wetroom with our selection of trays, screens, waterproofing and shower panels, available in a range of finishes.

## Wetrooms

210

Stylish, versatile and fully accessible, wetrooms give your bathroom a luxurious, spa-like feel. From trays and screens to waterproofing and accessories, our wetroom range has everything you need to create your dream bathroom.

## Shower panels

220

Whether you're designing a wetroom or just creating a stunning feature wall, our stylish shower panels offer an affordable, fuss-free alternative to individual tiles, giving you a seamless finish for a fraction of the price.

# Wetrooms

With an open-plan design, wetrooms are practical, spacious and incredibly stylish. From waterproofing your space to finding the perfect tiles and panels, discover everything you need to create your perfect wetroom.

Home delivery only.

**Recessed storage unit**  
A convenient way to keep your shower essentials close to hand, available in a range of sizes.

**Concealed valve shower**  
Offers a sleek and more premium feel to the bathroom, with less of the shower on display.

**Drain**  
Choose either a linear or square drain. Linear drains can be customised with a drain cover.

#### **Waterproofing**

Ensure your wetroom is fully waterproof with our range of tileable wall and floor boards and sealing kits.

#### **Wetroom screen**

Available in a range of sizes, glass and frame options.

#### **Wall panelling**

A great way to offer a floor-to-ceiling seamless look, and is easy to clean too.

#### **Wetroom tray**

Level access tray, available to fully waterproof your bathroom.

## **Why choose a wetroom?**

- Features like a level-access tray are great for people with reduced mobility
- A larger floor space makes access easier
- Wall-to-ceiling tiling and an open layout create a spa-like feel
- With no separate enclosure, wetrooms are quick and easy to clean
- With no bulky shower or bath units, wetrooms can make small spaces feel more open.

# Waterproofing your space

Create a fully waterproof space with our range of backer boards and installation kits. Designed to sit behind your wall or floor tiles in place of timber or plasterboard, backer boards are an essential part of any wetroom design.

## Aquadry wall and floor backer board kits

Kit contains tileable backer boards, waterproof joint tape, board fixings, screws and washers, and fixing adhesive.

# Splashwall™ shower panels

Splashwall™ shower panels are the ideal alternative to tiles, allowing you to transform your bathroom quickly and easily. Panels can be fitted onto virtually any surface for a watertight finish. Choose from four product ranges, all backed by a 15-year guarantee.<sup>†</sup>

Home delivery only.

Shown: Splashwall™ Elite panels, W600 x H2420mm, matt silver tile effect, 5055286008023.

## What is a shower panel?

Shower panels are a simple and innovative way to transform your bathroom. Splashwall™ large format panels are typically 2420mm high and 1200mm wide.

Each panel is securely fitted to the wall using adhesive and creates a watertight finish using silicone sealant and trims (where necessary).

Unlike tiles, these panels don't require a specialist fitter and can be installed in a matter of hours. Plus, aftercare is minimal as there's no grout to keep clean. Panels can simply be wiped down with a non-abrasive cloth.

### Postformed

Postformed panels give you a decorative finish on the end panel, meaning you don't need to trim to complete the panel edges.

### Tongue and groove

Tongue and groove panels allow numerous panels to slot together along a wall to create a seamless finish.

## Shower panel features

- Wide choice of designs
- Easy to clean
- Easily applied to bathroom walls
- Can be applied over existing tiles<sup>††</sup>
- Requires limited prep and aftercare
- No grouting required.

Whilst we try to ensure accurate colour representation, please be aware that the printing process may sometimes alter colours. Please refer to the Splashwall™ brochure and sample swatches available in store for the correct colour values. <sup>†</sup>Visit [splashwall.co.uk/guarantee](https://splashwall.co.uk/guarantee) for Splashwall™ guarantee terms and conditions. Your legal rights are not affected.

<sup>††</sup>To install Splashwall™ acrylic panels over tiles, you will need to apply a plywood or PDF board over the tiles first.
