Energy efficiency labelling

In the same way that refrigerators, freezers and other white goods have energy labels, the Energy-related Products (ErP) Directive for energy labelling now comes into force for water heaters of a certain capacity, including those with an instantaneous heating design, such as electric showers. Our current range of electric showers are all in the highest Energy Efficiency A Class rating.

Energy efficiency

These symbols tell you how energy efficient each appliance is with 'A' being the most efficient and 'D' being the least.

Selected products are available for home delivery only to selected locations, restrictions may apply. Delivery charges may apply. For full details see diy.ie/customer-support/delivery. **Prices correct as of 4 November 2022**
Take home today - Products are available to take home today from selected stores, see diy.ie for availability.
