Energy efficiency labelling

In the same way that refrigerators, freezers and other white goods have energy labels, the Energy-related Products (ErP) Directive for energy labelling now comes into force for water heaters of a certain capacity, including those with an instantaneous heating design, such as electric showers. Our current range of electric showers are all in the highest Energy Efficiency A Class rating.

Energy efficiency

These symbols tell you how energy efficient each appliance is with 'A' being the most efficient and 'D' being the least.
