Elegant Shower & Wall Panels

**B&Q**

2019/2020 Collection

**Splashwall helps you achieve the hottest trends, at the smartest prices. With shower panels that are designed to be installed quickly and easily and styles that will enable a stunning transformation to your bathroom.**

By using Splashwall you will be surprised at how easily and quickly your space can be transformed into an elegant, modern bathroom.

We offer our shower and wall panels in a range of materials. From beautiful glass look Acrylic, to our Laminate panels which are designed to reflect the beauty of natural materials.

# BATHROOM TRENDS

Achieve these fantastic looks in your bathroom for a fraction of the cost, with the modern Splashwall system.

## #1 WALLPAPER

We love wallpaper but we've never worked out a way to get the effect of wallpaper into a bathroom before - until now.

Our new Acrylic patterns range offer all the benefits of our Acrylic range, but with the added attraction of beautiful full scale wallpaper style patterns. Put simply, they are the height of modern design.

*See our Acrylic Patterns on page 12*

## #2 GLASS

Coloured glass is a fantastic way of adding colour and a stunning sense of style to a bathroom. Unfortunately glass is tough to fit, as it can't be cut on site and the panels are incredibly heavy.

We now have a perfect modern alternative to glass - Acrylic. It offers the same glossy, reflective finish as glass and the same incredible depth of colour but is much easier to fit and way more cost effective.

*See our Acrylics on page 16*

### #3 STONE

A stone or concrete wall can be a fantastic feature wall in any modern bathroom but they are very difficult to make fully waterproof.

Our laminate shower panels come in a range of natural styles that can offer this stunning look. Perhaps most importantly they can also be installed both quickly and easily.

*See our Laminates on page 22*

### #4 METRO TILES

Metro tiles have been in fashion for a while now and we love them in both traditional and modern bathroom looks. In a shower though, the amount of grout on display can become a problem when cleaning.

Our new composite range of panels offer this metro tile look in a range of colours. They are made from waterproof solid grade laminate and can be installed quickly, without the need for an expert tiler. Best of all though, as no grout is used they are a doddle to clean.

*See our Composites on page 28*

# BENEFITS

## WATERPROOF

Once installed, our panel systems are designed and constructed to be completely waterproof. They can be fitted using our adhesive over virtually any surface and finished using silicone sealant, ensuring a waterproof and watertight seal.

## COST SAVING & EASY TO FIT

Our panels are ideal for those who want the look and feel of beautiful natural stone, glass or other modern materials, but with none of the hassle of a complicated installation.

Our panel systems do not require a specialist tradesman and can be installed by a competent DIYer, saving you both time and money.

## NO MESSY GROUT

Unlike tiles, grout is not required to fit the Splashwall panels, which means less time to fit.

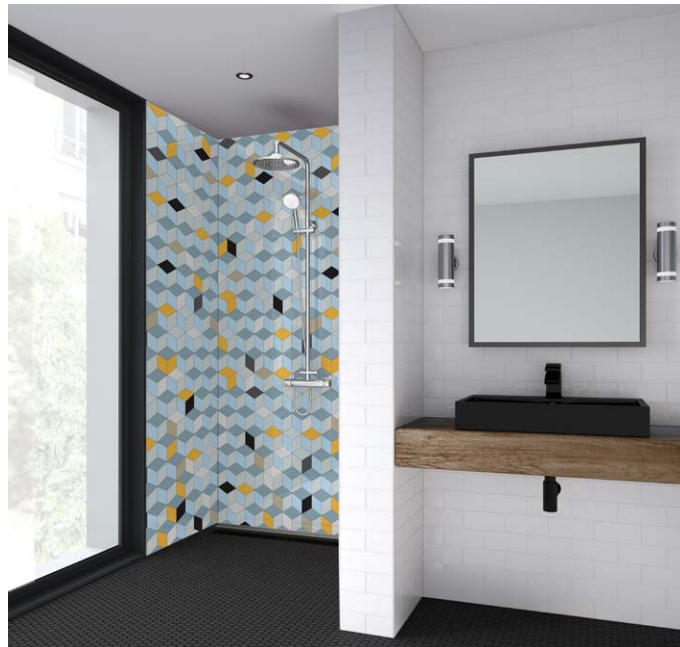

It also means that our panels don't get mouldy and therefore, it's much easier to keep them looking clean.

# OUR RANGE

From Acrylic to Laminate, we have a style that is ideal for any bathroom, whatever the budget.

## ACRYLIC PATTERNS - Page 12

Our Acrylic patterns are designed for those who want their shower panels to be the striking focal point of their bathroom.

## ACRYLIC - Page 16

The ideal modern wall or shower panel, our acrylic panels are the perfect alternative to glass, saving you both time and money.

## LAMINATES - Page 22

Our beautiful laminate styles are easy to fit, easy to clean and are all designed to represent the charm of natural materials.

## COMPOSITE - Page 28

Our composite range of shower panels are made from a super strong, completely waterproof, composite material with an embossed tile effect.

**Material:** 4mm engineered polymer  
**Sheet Sizes:** 2420 x 1200mm  
**Sheet Thickness:** 4mm  
**Finish:** Gloss  
**Style Shown:** Cubes

Our Acrylic patterns are designed for those who want their shower panels to be the striking focal point of their bathroom. Available in both monochrome prints and as shown to the right, gorgeous coloured styles.

ACRYLIC PROFILES

**Material:** 9mm core faced in a decorative high pressure laminate with rear balancing laminate  
**Sheet Sizes:** 2420 x 1200mm or 2420 x 600mm  
**Sheet Thickness:** 11mm  
**Finish:** Matt, gloss or satin  
**Style Shown:** Vintage Pine

Using our Splashwall panels, you will be surprised at how easily and quickly your bathroom can be beautifully transformed.

Each laminate style is designed to represent the charm of natural materials but with a much simpler and cost effective installation.

All our Laminate panels have a 9mm core, faced in a decorative high pressure laminate, with a balancing laminate on the reverse.

Splashwall

**Material:** Solid grade laminate  
**Sheet Sizes:** 2420 x 1200mm  
**Sheet Thickness:** 3mm  
**Finish:** Gloss  
**Style Shown:** White vertical shower panel & grey horizontal wall panel

**O**ur Composite range of shower panels are made from a super strong, completely waterproof composite material that has a stunning embossed tile effect.

Composite panels are for those who want the traditional look of metro tiles, but with all the benefits of the Splashwall waterproof panel system. The system is easy to fit as no grout is required and it's incredibly easy to clean, making it the ideal balance of tradition and modernity.

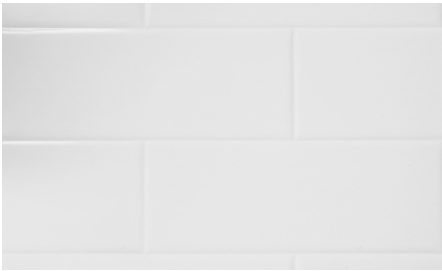

Shown here in a white shower panel with a contrasting grey feature panel coming up to dado height.
