

KIDS TRAMPOLINE

INTRODUCTION

- Before you begin to use this trampoline, you must read all the information in this manual. Just like any other type of physical recreational, activities, participants can be injured. To reduce the risk of injury is sure to follow the appropriate safety rules and tips.
- Misuse and abuse of this trampoline is dangerous and can cause serious injury!
- Trampolines are rebounding devices which propel the performer to unaccustomed heights through a variety of movements. So always use caution when playing on a trampoline.
- Always inspect the trampoline before each use.
- Proper assembly, care and maintenance of product, safety tips, warnings, and proper techniques in jumping and bouncing are all included in this manual. All users and supervisors must read and familiarize themselves with these instructions. Anybody who chooses to use this trampoline must be aware of their own limitations in regards to performing various jumps and bounces with this trampoline.
- Initially, you should get accustomed to the feel and bounce of the trampoline. The focus must be on your body position and you should practice each fundamental bounce until you can do each skill with bounce before moving on to more difficult and advanced bounces. Do not bounce recklessly on the trampoline, emphasis must be made on good control and the mastering of various bounce techniques.

TRAMPOLINE GUIDELINES

1. GENERAL INSTRUCTIONS

1.1 PURPOSE

- The product is intended for home/domestic use only and is not suitable for professional or medical uses.
- The maximum weight is 150kg. Overloading the trampoline above the recommended user weight will cause damage to the trampoline which is not covered by the warranty.

1.2 DANGER FOR CHILDREN

- Do not let unsupervised children near this product. Carry out the necessary safety precautions and supervise all trampoline activities. Be aware that the packaging material is not suitable for children. There is a danger of suffocation!

1.3 ATTENTION-PRODUCT DAMAGES

- Do not alter the product. Only use original spare parts. Repairs should only be carried out by qualified technicians. Improper repairs can compromise the safety of your trampoline. Use this product only as described in this manual.
- Protect the product against humidity and high temperatures.

1.4 ADVICE FOR THE ASSEMBLY

- The assembly of the product must be done carefully by at least two able-bodied adults. If in any doubt, ask a technically qualified person.
- Before you start assembling the trampoline, read all the instructions in this manual.
- Remove all packaging materials and lay down all parts on a free space. This gives you an overview and simplifies the assembly procedure.

- Check with the parts list that no parts are missing. Dispose of the packaging material when the assembly is completed.
- Beware that when using tools or doing technical work, there is always a risk of injury.
- Therefore assemble the product carefully.
- Create a danger free environment, for example: do not let tools lie around the workspace.
- Store the packaging material in a way that cannot cause any danger. Foils and plastic bags are dangerous for children (danger of suffocation)!
- After installing the product according to the instruction manual, please make sure that all screws, bolts and nuts are correctly installed and tightened and that all joints are tightly fixed.
- A clearance space of at least 7.3m is necessary above the trampoline. An appropriated clearance must be kept between the trampoline and possible sources of danger, such as electric cables, tree branched, playing devices, swimming pools and fences.
- The trampoline must be set up properly before use.
- Never set up the trampoline in rainy, windy or stormy conditions, especially lightning conditions. It is recommended that the trampoline be taken apart and stored in bad weather.
- The metal frame of the trampoline will conduct electricity. Lightning, extension cords and all electrical equipment must never be allowed to come in contact with the trampoline.
- The trampoline must always be used in a well-lit area.
- Do not place any objects under the trampoline.
- The trampoline in the vicinity of other leisure devices and constructions must not be used.
- When assembling or disassembling, please use gloves to protect your hands.

1.5 ADDITIONAL TIPS

- For additional stability you can place sand bags on the trampoline legs. This will prevent the trampoline from tipping over in the event of any side ward's force.
- Do not use during pregnancy.
- Do not use when suffering from high blood pressure.
- Jump with bare feet. Do not wear shoe, this will damage the jumping mat which is not covered by the warranty.
- No smoking.
- Do not put cigarettes, pets, sharp objects, or any other foreign objects on the trampolines.
- Do not use the trampoline whilst under the influence of alcohol or drugs.
- Do not sit or lean on cover pads as it needs to be feeble so it can move with the jumping mat. Please do not allow small children to pull themselves up the trampoline by using the cover pads. Tears in stitching caused by obstructing frame pads are not covered by warranty.
- Place trampoline on level ground. Preferably on grass. Locating the trampoline on hard surface will add stress to the frame and overtime cause damage which is not covered by the warranty. Placing the trampoline on an uneven surfaces may result in the trampoline tipping over.
- Do not expose the trampoline to direct contact with open flames.
- Secure the trampoline against unauthorized use.
- Do not use if trampoline is wet.
- Trampoline should be tied down with anchors during windy conditions or dismantled and stored away.

WARNING

1. Please ensure that the safety enclosure net zipper is 100% closed and all three entrance hooks are re-hooked before jumping.
2. Do not intentionally jump into the safety net, it is only designed to stop persons from falling off the trampoline. Intentional jumping into the safety net may cause the trampoline to top over, or may damage your net. Abuse of the safety net is considered negligent use which is not covered by the warranty, please refer to the disclaimer.

SAFETY INSTRUCTIONS

- All user of the trampoline need a supervisor. Regardless of the age and the experience of the user.
- The safety instructions of the trampoline should always be considered and obeyed.
- Somersaults must be avoided. Incorrect landings on the trampoline can lead to injuries, particularly to the back, neck or head. Injured may include paralysis. Or even death.
- Only one person should use the trampoline at a time. Multiple users on the trampoline will increase the risk of collision.
- The trampoline has to be examined for damaged, wearing or defective part before each usage, as it can impair the overall safety of the trampoline. The damaged, wearing or defective parts should be replaced immediately. In the meantime the trampoline must be restricted from access.
- No clothes with hooks or parts may be carried when jumping on the trampoline, in order to avoid hooks getting caught.
- The trampoline must be set up only on a flat ground and non-slippery surfaces.
- Strong wind can blow the trampoline away. If strong winds are predicted. The trampoline must be moved to a protected place, and taken apart. Or fastened to the ground with cords and herrings. At least three anchorages are necessary. It is not enough to anchor the pennants in the ground since the can tear out of the patch cords.
- Try to avoid the moving the assembled trampoline, because it could bend during transportation. Should it be necessary to move the trampoline, please consider the following: at least four people must be evenly spaced around the frame to lift the trampoline off the ground. The trampoline must be carried horizontally, and if the frame shifts position use four people to draw the trampoline in shape.
- Trampoline are jumping devices, enabling the user to jump to unusual

heights as well as into a multiplicity of body movements. Jumping into the trampoline, hitting the frame, cover pads or incorrect landing on the trampoline can lead to injury.

- Users should be familiar with the user manual. This manual contains assembly instructions, selected precautionary measures as well as recommendations for servicing and maintenance of the trampoline. In order to ensure a secured and fun use of the trampoline.
- It is the responsibility of the owner of the supervisor to guarantee that all users of the trampoline are informed sufficient space around it as a safety precaution.
- Never use it near water and keep sufficient space around it as a safety precaution.
- Beware of moving parts which could catch your arms and legs.
- Do not stick any foreign objects in to the trampoline.
- Do not allow anyone or any object to go under the trampoline whilst someone is jumping on the mat. The jumping mat is flexible and downwards force create by someone jumping can cause serious injury to a person.
- Implement all safety rules and make yourselves familiar with the information in the user manual.
- The trampoline can be only used, if the jumping mat is clean and dry. Worn or damaged jumping mats should immediately be replaced.
- Object, which could be dangerous to the used, should be vacated from the area. Avoid unauthorized and unsupervised use of the trampoline.
- Do not use the trampoline under influence of alcohol or drugs (inch medicines).
- Learn the fundamental jumping techniques thoroughly. Before trying difficult jumps. For more information, see section-fundamental bounce techniques.
- Climb on the trampoline. Do not jump on it directly. Do not use the trampoline as jump board for other articles. For more information, see section-accident categories: mounting and dismounting.

PARTS LIST

A: Top Rail (x6)

B: Leg (x3)

C: Jumping Mat (x1)

D: Net (x1)

E: Spring (x36)

F: Upper Pole & Foam (x6)

G: Lower Pole & Foam (x6)

H: Cap (x6)

I: Clamp (x12)

J: Space (x12)

K: Nut (x12)

L: Washer (x12)

M: Spanner (x1)

N: Spring Fixing Tool (x1)

TRAMPOLINE ASSEMBLY

Refer to **PARTS LIST** for identification of parts.

WARNING: Two adults in good physical condition are required for the following assembly. For your safety, you should wear proper shoes and clothing. Failure to follow these instructions and warnings may result in injury.

NOTE: Picture may vary slightly with different trampoline models.

Step 1:

Attach all the top rails to form a large circle.

Step 2:

Attach the all legs to the top frame. Then turn the frame over.

Step 3:

Hang one side of spring on the triangle attached to the jumping mat. Springs under heavy tension may require adjacent springs to be attached at every four or five holes, so the spring tension is distributed equally.

Step 4:

Repeat process for the remaining springs. Use the spring tool, as shown below.

Step 5:

Attach the remaining springs until all springs are attached onto the frame.

Step 6:

Use the quick clamp to secure the enclosure pole to the upper hole of the leg extension and the hole of top rail's welded tube.

Step 7:

Repeat Step 6 to make sure all the screws tight with the extension tubes, you need use the spanner included to secure the nut for standard pole.

**Step 8:**

Put the caps to the upper pole. Fit the upper pole by pushing them down to the readily assembled poles. Make sure that the poles steady enough.

Step 9:

The edge with the pre-owned hanging loop on the upper part of the net will be hooked at the top of the pole.

Step 10:

Then tie the netting securely to the triangle rings of the trampoline mat. Repeat this step to make sure all the plastic parts of the netting tie to the rings.

Step 11:

Your netting is now fully fitted. Proceed to testing the trampoline section of this manual before jumping on the trampoline.

TESTING THE TRAMPOLINE

After assembling the trampoline, it is important that you perform the following safety checks:

Trampoline Safety Checks:

- Using a screwdriver, check if all the screws are tightly secured.
- Look underneath the trampoline and check all the springs are hooked securely to the frame and triangle rings.
- Move the trampoline around and check the sturdiness of the frame.
- Using your two hands, put your body weight on one section of the trampoline and release to check that the floor is even.
- Inspect the cover pads and check if they completely cover the springs and frame.
- Make sure the strings of the pads are tied securely.

Enclosure Net Safety Checks:

- Hold onto pole net jacked and check that all the enclosure poles are sturdy by shaking it.
- Check the enclosure net and pole jacket for any tearing in the stitching or material.
- Check the enclosure net zipper and entrance hooks function properly.
- Check to see if all safety enclosure hooks are attached to the triangle ring underneath the trampoline.
- Once all the checks are performed and the trampolines are passed all the initial test (above), then test the trampoline by jumping on the centre continuously for 5 minutes. If the trampoline feels sturdy then you passes the test. Remember to abide by all the safety rules. Have fun, play safe.
- **Should you have any questions, please feel free to contact us by email.**
