Walensee
MADE IN CHINA

If you are not happy with our product for any reason at all, we will provide you with your choice of a replacement or full refund. Please contact us directly at Walensee-service@hotmail.com and We would be happy to assist you!

The advertisement is divided into two main sections. The left section is a photograph of the 'Steel Tamper Tool' in a garden setting. The tool is a tall, black, adjustable pole with a wide, flat base. The text 'STEEL TAMPER TOOL' is overlaid in large, white, bold letters, with the 'Walensee' brand name in a smaller, italicized font below it. The right section is a technical diagram titled 'Assembly Instructions For Steel Tamper Tool'. It shows a vertical pole with a base and a top cap. Green arrows indicate the direction of assembly: one arrow points down from the top cap to the pole, and another points down from the pole to the base. The 'Walensee' logo is placed at the top of the pole in the diagram. At the bottom of the diagram, there is a small illustration of the base being attached to the pole. The bottom of the advertisement features the 'Walensee' logo with a mountain range icon, the text 'MADE IN CHINA', and a customer service notice.
