

Self-Adhesive Screw Cap Covers – Fitting Guide

Product Description

Self-adhesive screw cap covers are designed to conceal visible screw heads and drilled holes in furniture panels, providing a neat and professional finish.

Each cover is:

- 15 mm diameter
- Self-adhesive backed
- Suitable for interior furniture applications
- Ideal for cabinets, wardrobes, shelving units, desks, and flat-pack furniture

Before You Start

1. Ensure the surface around the screw head or hole is clean, dry, and free from dust, grease, or moisture.
2. Check that the cover colour matches the furniture finish before application.
3. For best results, apply at room temperature.

Installation Instructions

Step 1 – Prepare the Surface

- Wipe the area surrounding the screw head or hole with a clean, dry cloth.
- Allow the surface to dry completely before fitting.

Step 2 – Remove the Cover

- Carefully peel a screw cap cover from the backing sheet.
- Avoid touching the adhesive surface where possible.

Step 3 – Position the Cover

- Align the cover centrally over the screw head or drilled hole.
- Check the position before pressing firmly into place.

Step 4 – Secure the Cover

- Apply firm pressure across the entire surface of the cover for several seconds.
- Ensure all edges are fully bonded to the furniture panel.

Suitable Applications

- Kitchen cabinets
- Wardrobe interiors
- Bookcases
- Shelving units

- Office furniture
- Flat-pack furniture assembly
- Furniture repair and refurbishment

Care and Maintenance

- Clean with a soft dry or slightly damp cloth.
- Do not use abrasive cleaners or solvents.
- Avoid excessive moisture or direct heat exposure.

Important Information

- Intended for interior use only.
- Apply only to clean, smooth, dry surfaces.
- Adhesion may be reduced on textured, dusty, oily, or damp surfaces.
- Once applied, removal may damage the adhesive backing.

Safety Information

- Keep out of reach of young children.
- Small parts may present a choking hazard.
- Dispose of backing materials responsibly.

Installation complete – your screw heads and fixing holes are now neatly concealed for a clean, professional furniture finish.
