Personalised style

Choose from a range of face plate colours to match your personal style and aesthetic.

Customise your Dynamic Lighting through the Seren EV app.

Why Seren?

Designed and developed in Britain for use in UK domestic settings, Seren offers quality and an effortless fast charging solution.

With a user-friendly and intuitive design, users benefit from clear instructions, easy installation, simple control and experienced technical support.

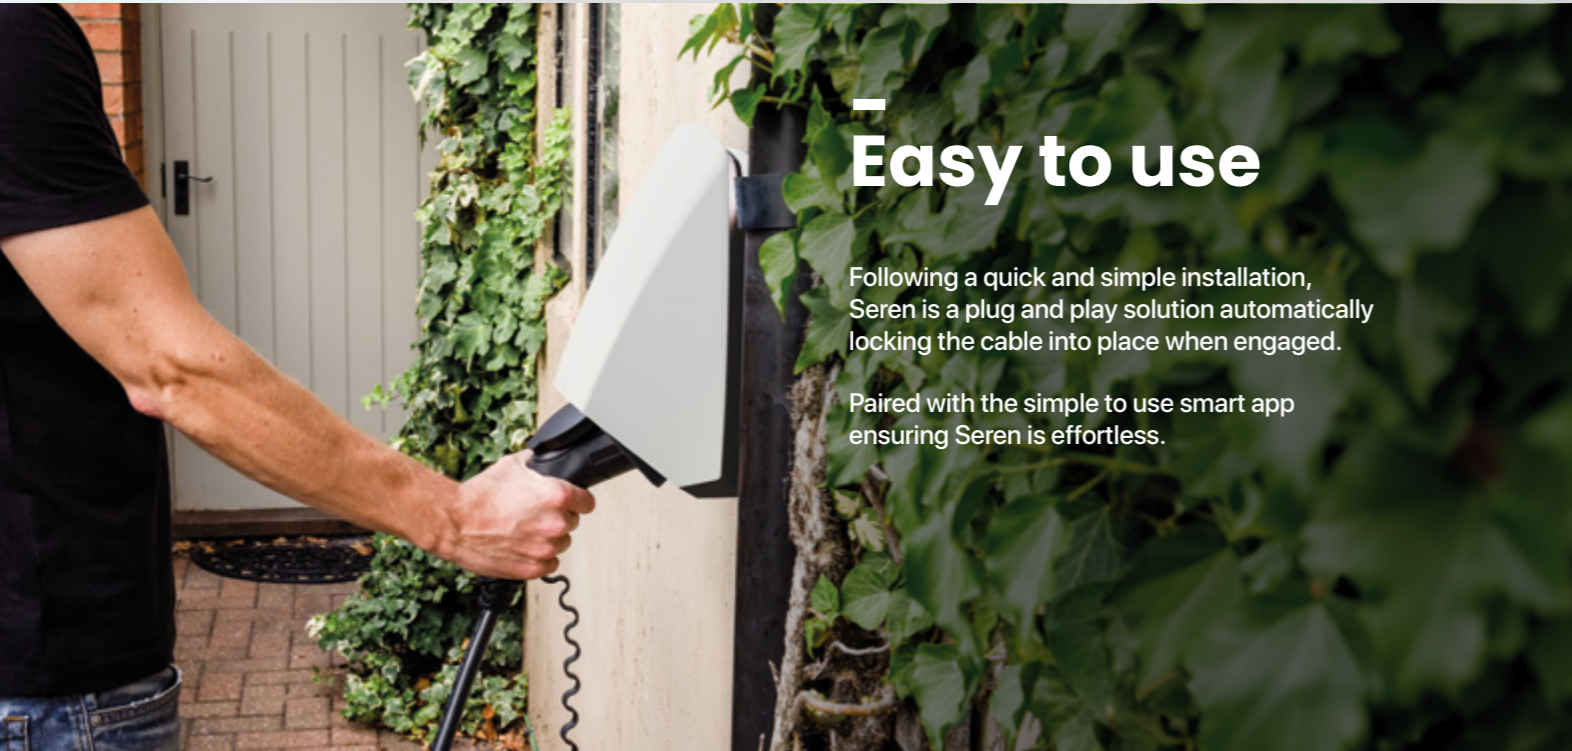

With over 25 years of experience within the domestic electrical industry, the team at Seren offer a wealth of knowledge and expertise to both the installer and the homeowner.

Easy to use

Following a quick and simple installation, Seren is a plug and play solution automatically locking the cable into place when engaged.

Paired with the simple to use smart app ensuring Seren is effortless.
