

## Application instructions – static Premium

**1** In order to apply the film properly, please clean glass, thoroughly and apply only to a flat surface.

**2** Measure to the size required using the grid on the backing paper – please allow 2 mm distance to the window frame – cut film carefully.

**3** Spray glass with enough water.

**4** Remove backing film completely and position film on the glass.

**4.1**

**5** Spray film surface with water. Using a squeegee, remove moisture starting from the centre out to the edges.

**5.1**
