## 1. Introduction

Thank you for choosing GeZu Impex products. This manual provides essential safety and maintenance guidelines to ensure the safe and efficient use of our tools and equipment. Please read this document carefully before use.

---

## 2. General Safety Instructions

1. **Wear Proper Protective Gear:** Always use gloves, closed-toe shoes, safety goggles, and other necessary protective equipment.
  2. **Inspect Tools and Accessories Before Use:** Check for damage, loose parts, or rust. Discontinue use of items that appear damaged or unsafe.
  3. **Use Products According to Their Design:** Avoid misuse, which may lead to injuries or damage.
  4. **Keep Hardware Out of Reach of Children:** Store securely to prevent unauthorized access.
  5. **Ensure a Safe Workspace:** Work on a dry, stable surface and avoid using tools or equipment in wet or unstable conditions.
  6. **Use Proper Fastening Techniques:** Ensure components are correctly positioned and secured using appropriate fasteners.
  7. **Follow Load Guidelines:** Never exceed the recommended weight or load-bearing limits.
- 

## 3. Tool-Specific Safety Guidelines

Hand Tools (e.g., hammers, screwdrivers, wrenches)

- Inspect for wear or damage before each use.
- Use the correct tool for the task to avoid breakage or injury.
- Store safely when not in use to prevent accidents.

#### Power Tools (e.g., drills, electric screwdrivers, sanders)

- Read and follow the manufacturer's instructions before operation.
- Use extension cords rated for outdoor use; inspect cords for damage.
- Keep cords away from cutting zones.
- Wear hearing protection when necessary.
- Unplug or turn off tools when making adjustments or cleaning.

#### Cutting Tools (e.g., knives, saws, cutters)

- Keep fingers clear of blades and cutting areas.
- Cut away from your body to prevent injuries.
- Secure materials properly before cutting.

#### Measuring & Marking Tools (e.g., levels, tape measures, chalk lines)

- Use on a stable surface for accuracy.
- Store properly to prevent bending or damage.

#### General Hardware Products & Components

- Ensure all components are correctly aligned and properly fastened before use.
- Avoid using bent, deformed, or corroded parts.
- Use the correct size of connectors, supports, or fasteners for the job.
- Regularly inspect structural accessories for signs of wear or fatigue.
- Store metal components in a dry environment to prevent corrosion.

#### Scaffolding Items (e.g., base plates, clamps, connectors)

- Ensure all components are properly assembled and secured before use.
- Never exceed the recommended weight capacity.
- Regularly inspect for signs of wear, rust, or damage.

- Use appropriate fastening techniques to prevent instability.
  - Only trained personnel should assemble or dismantle scaffolding.
  - Always work on level ground.
- 

#### **4. Maintenance and Storage**

1. Clean After Use: Remove dirt, dust, or debris to maintain efficiency.
  2. Sharpen Blades Regularly: Use proper sharpening tools for performance and safety.
  3. Store in a Dry Location: Keep tools and components in a cool, dry place to prevent rust and degradation.
  4. Oil Moving Parts: Lubricate hinges, joints, and other moving components periodically.
  5. Organize Hardware Components: Store fasteners and small parts in labeled containers to avoid loss and misuse.
- 

#### **5. Emergency Guidelines**

##### Minor Injuries:

- Wash wounds with clean water.
- Apply antiseptic and bandage as necessary.

##### Severe Injuries:

- Call emergency services immediately.

##### Electrical Shock:

1. Disconnect power immediately.
  2. Ensure the area is safe.
  3. Call for emergency assistance: Dial 112 in the Netherlands.
- 

#### **6. Disposal & Recycling**

- Follow local regulations for disposing of metal, plastic, or electrical components.
- Recycle packaging materials responsibly.

- Contact authorized recycling centers for disposal of old or damaged tools and hardware.
  - GeZu Impex is committed to sustainability and encourages environmentally responsible practices.
- 

## **7. Safety Responsible Contact**

The Safety Responsible in our company ensures all safety guidelines are followed, monitors tool maintenance, and manages emergency situations.
