

Warranty Information

Proof of purchase will be required.

The guarantee does not cover faults or damage caused by incorrect installation and/or maintenance, ordinary wear and tear, water composition, etc.

*Please see www.methven.com for full terms and conditions of warranty

Cleaning

Your product has a high-quality finish and should be treated with care to preserve the visible surfaces.

Never use abrasives or abrasive cleaning agents to clean this product. Clean regularly with contamination free warm water and a damp soft cloth.

Limescale deposits can be prevented from forming by wiping immediately after use. If shower performance is compromised by the build-up of lime-scale, soak in limescale remover for up to 10 minutes. Do not attempt to remove limescale with sharp objects or abrasives. Do not use products containing chlorine bleach or hydrochloric acid as these can damage the shower. Always rinse the shower thoroughly after cleaning to remove cleaning products that can damage the shower.

Clean shower head using a brush with soft bristles.

Do not use any sharp objects to clean nozzles.

Clean filter washer located in the hose cone on the water outlet end periodically.

We have a policy of continuous improvement and reserve the right to change specifications without notice.

Please keep these instructions for future reference and request of replacement parts.

General Safety Information

Please read all of the instructions before installation.

Methven recommends this product is installed by a competent person in compliance with all relevant regional regulations.
It is the responsibility of the installer to assess the installation environment for hazards and incorporate back flow prevention where deemed necessary.
It is the responsibility of the installer to ensure a waterproof seal is achieved, after installation all connections must be checked for leaks.
Care should be taken when connecting handset to hose to not damage the flow restrictor in the handset.
All outlets used primarily for personal hygiene shall deliver water at a safe temperature as per regional regulations.
This product must not be modified in any way as this will invalidate the guarantee.
Remove all packaging and check the components for damage before starting installation.

Installation Instructions

To change an existing shower head, unscrew the connector/swivelling cone to remove the shower head from the hose.

Be sure to hold the hose upright to not don't lose the washer inside the hose connector that creates a seal with the shower head.

Remove any debris.

Attach the new Aio shower head and screw on tightly.

Turn on the shower to check for leaks.
