1. Safety Instructions

■ Storage and Use

	Do not expose this device to extreme temperatures. Operating temperature range: 0°C to 50°C Storage temperature: -10°C to 60°C.		Keep this TV set away from water or damp environments.
	Never expose this TV set to moisture, dust, oil or smoke.		Never drop or expose this device to impact.
	Always secure this device during transport to avoid		Never strike this TV set or scratch with sharp objects.

■ Maintenance

Please unplug all connection wires before start cleaning this machine.

	Please wipe the display screen and buttons with a soft cloth. Only clean the screen with professional LCDTV screen cleanser.		Never strike this TV set or scratch with sharp objects.
------------------------------------------------------------------------------------	------------------------------------------------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------	---------------------------------------------------------

■ Precautions

1. Use only the supplied power adaptor, failure to do so can damage the device and may cause personal injury.
2. When the device is not in use, turn off the AC adaptor or remove the car power adaptor from the 12V socket.

⚠ Warning

Do not watch this TV whilst driving.

⚠ Special Notice

There may be a few highlights or dark spots visible on the LCD screen. This is a very common property of active matrix display technology and does not indicate a defect or fault.

Never try to repair or modify this device yourself, this will invalidate the warranty, may cause further damage to the device and could cause personal injury. In the case of any fault, please turn off the device immediately and contact August International customer services or your retailer to arrange a professional repair.

2. Main Features

- Supports Freeview and Freeview HD Signal
- Built-in DVD and Multimedia Player
- 7 Day EPG and Subtitles
- HDMI In, AV In, USB Port and Micro SD Card Reader
- Records onto USB Stick or External Hard Drive

3. Box Contents

 DA383D TV	 AC/DC Adaptor	 Remote Control	 Digital TV Antenna
 HDMI Cable	 AV Cable	 User Manual	

3.1 Interchangeable Plugs

Quick Start Guide DA383D

1. Connect an antenna to the DA383D.
2. Plug the DA383D into a mains power socket using the supplied power adaptor.
3. Switch the DA383D on using the remote control.
4. Use the arrow buttons to select language.
5. Press <Enter> to confirm.
6. Use the arrow buttons to select country.
7. Press <Enter> to begin auto search.

Note: If you want to exit auto search, press <EXIT>, then Use <◀> or <▶> to select YES or NO.

Please note that the signal strength in some areas may not be sufficient to support TV reception using a portable aerial. The distance from the closest transmitter and other factors such as surrounding buildings, the walls of your house, weather and electro-magnetic interference caused by power and telecommunication infrastructure may affect signal strength. Changing location may improve signal reception but a rooftop aerial designed for digital TV should be used to achieve the best possible reception.

4.4.2 Use of the Remote Control

Please remove the PVC packaging before using the remote control for the first time.

1. Do not expose the remote control to direct sunlight or very strong / bright light.
2. Do not drop or step on the remote control or subject it to shocks.
3. Keep the remote control away from extreme heat and humid environments.
4. Keep the remote control away from water.

■ Operating range

1. The IR range of the remote control is 5 meters.
2. The IR sensor on the remote control should be aimed directly at the sensor on the front of the device. It may not be possible to operate the device if there are obstacles between it and the remote control.
3. The receiving angle is $\pm 30^\circ$.

■ Replacing the battery

If the remote control does not function or if the operating range becomes reduced, replace the old battery with a new one.

Warning: Please note the remote control contains button or coin cell battery. Hazardous if swallowed.

5. Connection and Setup

5.1 Connecting the power adaptor

1. Connect the power adaptor to the DC IN 12V socket.
2. Plug the power adaptor into the mains power socket.

5.2 Connecting headphones

Connect your headphones to the headphone socket.

*Note:

When headphones are connected to the device, no sound will be played through the speakers.

Headphone and Earphone Safety

1. Listening through headphones or earphones at high volume for prolonged periods can cause damage to your hearing.
2. Please be considerate to others and use closed back headphones or listen at low volume whilst in public.
3. If you are experiencing tinnitus, stop using headphones or listen only at a very low volume.
4. Even at a low volume, prolonged use of headphones or earphones can cause damage to your hearing.

5.3 Connecting to a Source Device via HDMI

Switch off the DA383D and source device before connecting or disconnecting any cables.

5.4 Connecting to a Source Device via AV

Switch off the DA383D and source device before connecting or disconnecting any cables.

6. Start Up

6.1 Power On/Off

6.1.1 Power On

After connecting the power adapter to the device, switch the power toggle located on the right-hand side of the device to the 'On' position. Alternatively, while in standby mode (if the switch is already set to 'On'), press the power button on the remote control once to turn on the device.

6.1.2 Power Off

Switch the power toggle located on the right-hand side of the device to 'Off', or use the power button on the remote control to power off the device.

6.2 Mode settings

Press <MODE> repeatedly to select between the following modes:

17. Troubleshooting

Problems listed below do not necessarily signify a fault with the unit. Please check this list before requesting repairs.

Problems	Possible Causes and Solutions
No picture or sound	Check the connection with the AC adaptor or car adaptor. Use of an unauthorized power supply. Press POWER on the remote to turn on the device, or press and hold POWER on the device for 1.5 seconds to turn it on.
No image	Check the channel selection. Scan for channels again. Always rescan for channels in new locations.
No sound	Check the sound volume. If you are using earphones, test them on another item. Check the earphone cable is plugged into the earphone socket on the device. Incorrect TV Format setting in Analogue TV mode. Set the device to factory default and then try again.
Picture freezing, and/or sound distorting	Signal may be too weak, please check the aerial. Try to use a proper roof top aerial or an amplified aerial.
No signal	Please check the aerial. Try to use a proper roof top aerial or an amplified aerial.
Dark Picture	Please adjust Brightness and/or Contrast settings.
Snowstorm	Motors/Trains/High Voltage Lines and Neon Lights may affect the signal.
Achromatic/Flashing/ No Colour	Please adjust the Colour Settings. Incorrect TV Format setting in Analogue TV mode.

Warning

This user manual is intended for reference purposes only. No further notice will be given regarding modification of any information contained therein. Due to continuing improvements, the features and design are subject to change without notice.

Warning

No user serviceable components are fitted inside this TV. Do not attempt any repairs, as this will invalidate the warranty. Any repairs must be carried out by either the manufacturer or their nominated service centre. Parts inside this set are subject to high voltage.

18. Warranty

This product is guaranteed for twelve months from the date of the original purchase. In the unlikely event of any defect arising due to faulty materials or workmanship, the unit will be either replaced or repaired free of charge (where possible) during this period. An alternative product will be offered in case the product is no longer available or repairable.

This warranty is subject to the following conditions:

- The warranty is only valid within the country where the product is purchased.
- The product must be correctly installed and operated in accordance to the instructions given in this user manual.
- The product must be used solely for domestic purposes.
- The warranty only covers the main units, and does not cover the accessories.
- The warranty does not cover the damage caused by misuse, negligence, accident and natural disaster.
- The warranty will be rendered invalid if the product is resold or has been damaged by inexpert repairs. The manufactures disclaim any liability for incidental or consequential damages.
- Please consult our customer adviser before returning any product; we are not responsible for any unexpected product returns.
- Any faulty product must be kept and returned in the original packaging with all the accessories and the original copy of the purchase receipt.

The warranty is in addition to, and does not diminish, your statutory or legal rights.

Please note:

1. A LCD display panel comprises a very large number of pixels and each pixel contains three sub-pixels - red, green and blue. Due to the complex manufacturing process, occasional pixel anomalies may occur. Pixel anomalies cannot be fixed or repaired and can happen at any stage in the LCD's life. August products should not be deemed as faulty if there are no more than three bright and dark pixels respectively.

2. Portable TV antennas included in the box are for people to watch Freeview TV in areas where the signal is very strong and there may be difficulties in receiving signal with the included portable antennas in some regions at present. This is due to the fact that Freeview is yet to operate in full power in the UK. August TVs should not be deemed as faulty if it can receive Freeview by connecting to a proper digital rooftop aerial.
