the lighting collection

ASSEMBLY INSTRUCTIONS

ASSEMBLY

- No Assembly required.

SET UP

- Turn the electricity supply OFF.
1. Remove the skirt / shade ring from your existing lamp-holder
 2. Attach the bottom tier to the top tier as illustrated.
 3. Fit the shade gimbal over the threaded section of the lamp holder, whilst supporting the shade.

If your lamp holder is ES (Edison screw) type remove the plastic lamp holder adapter from the lamp holder ring in the centre of the pendant or shade frame (DIA.2). If your lamp holder is BC (Bayonet cap) type then you do not need to remove the plastic lamp holder adapter.

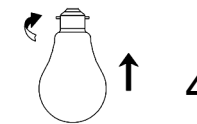

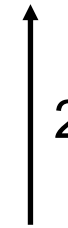

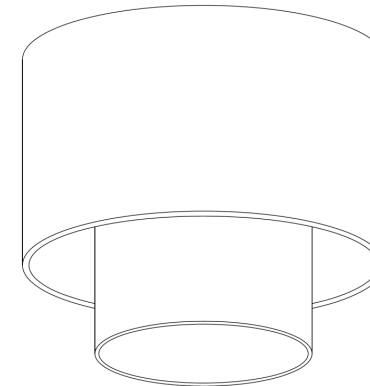

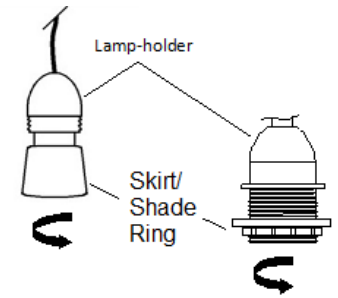

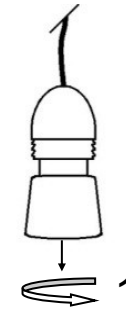

4. Re-fit the skirt / shade ring to the lamp holder and ensure it securely holds the shade
5. Insert the bulb into the lamp-holder as stated on the pendant, or shade. (Never exceed the recommended wattage indicated on the product. Always dispose of bulbs carefully).

- Turn the electricity supply ON

SAFETY

- Before inserting or replacing bulbs make sure that the light is switched off and has cooled down.
- Dust with a soft dry cloth.
