

# Wall Lights Installation Manual

**PLEASE READ THESE INSTRUCTIONS CAREFULLY BEFORE INSTALLATION**

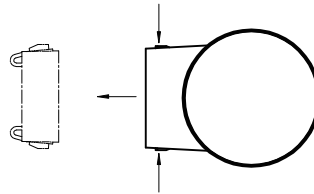

EMPLOY THE LATEST SAFETY REGULATIONS AND PROCEDURES FOR SAFE INSTALLATION

**We recommend this LED WALL LIGHT is installed by a qualified Electrician**

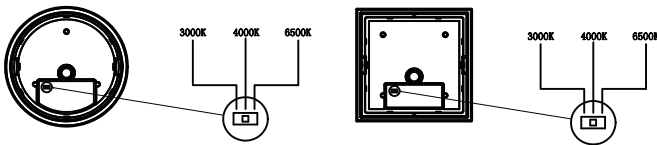

1. Switch off the mains power supply.

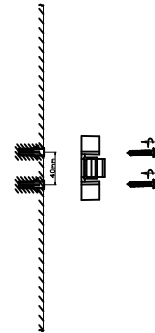

2. Disassemble the lamp holder.

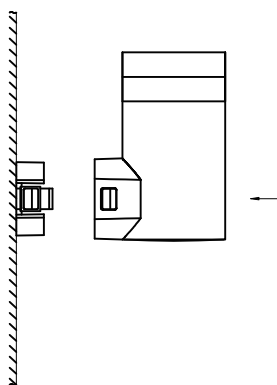

3. Set the CCT gear to the expected position.

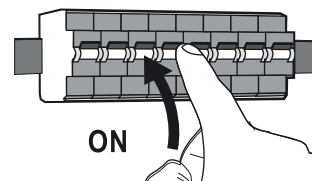

4. Screw the lamp holder into the wall.

5. Install the lamp to the holder.

6. Switch on the mains power supply.

**NOTE:** Connect the pre-wired power cable from the fitting to the mains supply cable ensuring correct polarity is maintained as below:

**LIVE** (Red or Brown) to Live incoming (Red or Brown)

**NEUTRAL** (Black or Blue) to Neutral incoming (Black or Blue)

**EARTH** (Green / Yellow) To Earth incoming (Green / Yellow)

This Installation Manual is applicable for below items.

| Model Name | Photo   | Rated Power (W) | Rated Voltage (V) | Freq. (Hz) | Color Temp. (K)        |
|------------|---|-----------------|-------------------|------------|------------------------|
| X8865      |    | 9               | 220-240V          | 50/60      | 3000/4000/6500<br>3CCT |
