Long Life Lamp Company

Steampunk Wall Light

Industrial With Nautical Wheel

The Unique 4 lantern wall light which is Industrial Steampunk in style is complimented with additional Vintage characteristics. In the center a rustic contrasting Nautical wheel is added bringing real presence. The wheel not only enhances the overall industrial look but adds a sense of greater size to the fixture.

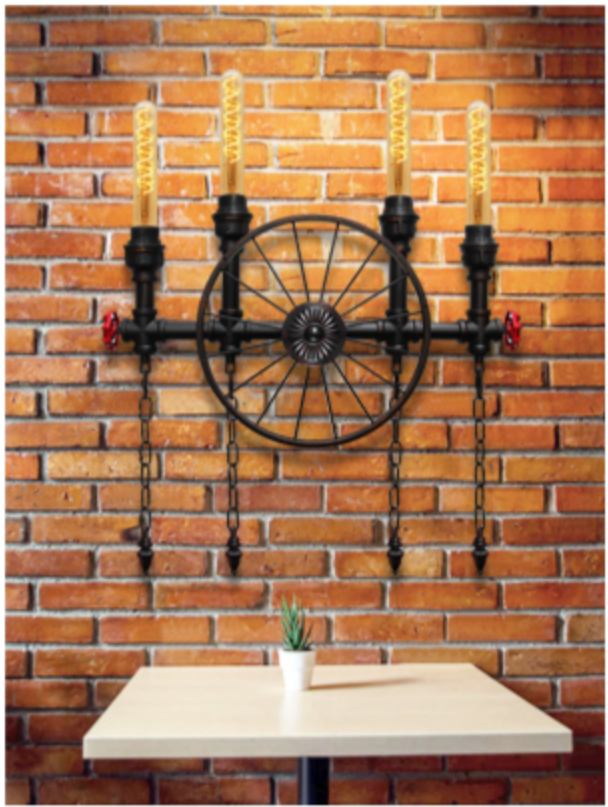

Classic Valve Tap

On either end of the track pipe there are old factory style red valve taps. Simulating vintage era where water pipes within industry actually had them. Although they have no use except being visually appealing on the fixture the valve taps bring a true industrial look. Again maximizing more character without going overboard.

Pendant Final Touch

To furthermore add to the fixture as an extra final detail it has been added with 4 chain pendants. Each chain suspends of the lamp holder arm which simply sets this wall light off from others. It looks incredible when used in the right interior setting. Add 4 vintage ST58 LED bulbs and see the wall light bring warmth and ambiance.

Industrial Steampunk Wall Light

Old Factory Rustic Water Pipe

Stunning metal wrought copper water pipe wall up lighter, made to the steampunk industrial style. Wall-mounted Steampunk pipe lamp is uncommonly attractive, with a sophisticated industrial look suited for bars, cafes, restaurants, home - living room, bedroom, hallway. Simply add 4 Vintage LED bulbs which now come in a variety of filaments and shapes to further enhance this amazing wall light. We recommend ST58 E27 bulb or T30 E27 bulb.

- Bulbs Not Included
- Please note if you use dimmer switch please be sure to purchase Dimmable LED
