Easy Installation

Easy To Install

This particular kit includes 4 x 3w LED adjustable spikes in cool white 6500k each with 2 metre cable. The spike lights plug into an DC socket connection box which has its own 3 metre cable and mains adapter.

Landscape Lighting IP54

Low voltage 12v garden spike spotlights are inherently safer and a quick way to light up and enhance garden features. Plants and trees can be lit and they can be easily placed around the garden to suit. Great for pathway and lawn lighting also.

Amazing Ambient Effect

A garden is not just something at the back of your house. It can be made into a personal tranquil retreat if you use the right lighting available. Why not enjoy your garden rather than have it as an empty backyard.
