Model ZLC353WW

Modern Lighting By Zenon

Shines Bright

Built-in LEDs shine brightly and are energy-saving - perfect for modern consumers. This fixture has 12w integrated LEDs which produce 1420 lumens of light output, making it ideal for external security.

Porch, Doorway

Up to home and in front of doorway lighting is very crucial to make it more easier and secure to access in to your home safely. This particular wall lamp can be both direct and indirect light source making it an ideal choice for security.

Around House

Flat, angular lampshade on the LED outdoor wall lamp can be pivoted by 315 degrees and moved up/down by 45 degrees. Aluminum body with black surface, which looks pleasantly timeless, lending the overall design a distinctly modern touch.
