

# 60W LED Continuous Strip Light

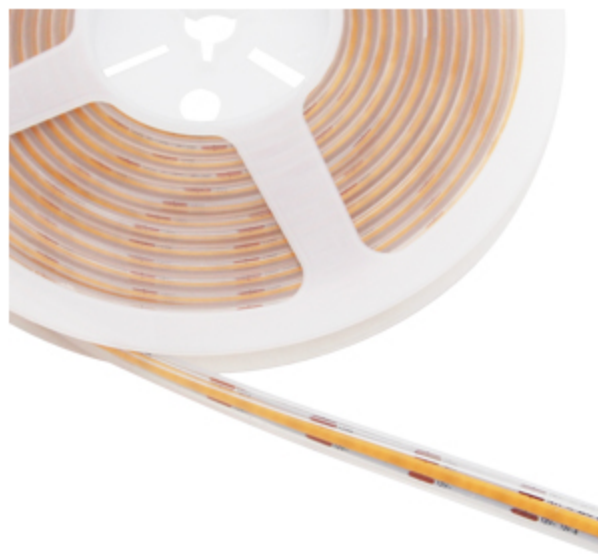

Long Life Lamp Company

## IP65 External

## Continuous Run Illumination

**LED Continuous** run strip tape in 5 metre reel, cuttable when less length is required at points. This is a professional strip light without gaps between the LEDs with allows for an over all desirable effect and high light levels with a balanced illumination.

## Includes Transformer

12v includes transformer, Non dimmable, IP65 water resistant tape, Can be cut at points if under 5 metre length is required. If installing outside, Note - the transformer is Not IP65. Slim design which is easy to handle around and install.

## Warm White

Continuous LED tapes pack in as many COB LED chips in a run with minimum parting between the chips. This method allows a more even and well balanced illumination without compromising on high brightness. Ideally used by professionals for creating eye catching, pro standard linear lighting displays, as they know the dark spots left by standard strip lights flaw the desired effect.
