### Lots Of Features

#### Set Up Scenes

With 4 fixed themes you can also have 4 themes of your choice where at a press of a button you can bring on your desired mood lighting. It is easy to set up your own themes and edit it as many times as you like. Great for multiple people living in one home.

#### Timer Settings

Set on a timer to turn on lights at a specific time, so you can enjoy your garden party or just have more control over when your lighting comes on.

#### Group Up

In groups of 4 you can set different themes around your house from the same App.

#### Sharing

Share your settings with family and household members making it more interacting and fun. This is a great way for everybody to interact with something as simple as lighting.
