Directional Beam

MODEL H3142-F

Modern Reading Wall Light ON/Off Switch

Use on sides of bed

Use this reading light/ambient light on each side of the bed to create enough light for reading before bedtime or browsing on the laptop.

Adjustable Flex

The head can be moved depending on how much light you want on your task. The arm/flex is adjustable in many angles to point light.

LED

This light fixture has a built in LED, we always recommend using LEDs as they use less power and provide better light.
