Outdoor Wall Light

Opal Diffuser

Outdoor lighting's popularity has increased in recent years, thanks to the potential of LED technology. Now exterior places can be lit more efficiently. This lamp has a added feature thanks to the opal diffuser, visually appealing when lit - letting the fixture emit a cool white glow. This wall light will compliment your outdoor lighting scheme.

LED 16w 4000k

The wall light has an integrated LED in 4000k. This is a natural softer white light as compared to 5000k -6500k. Only using 16w power consumption it is energy efficient. 1400 lumen light output brightness to illuminate for example doorways, porches and is suitable as a wall luminaire depending on your requirement.

IP44 Rated

Ideal for outdoor use this product will resist to weather conditions within IP44 rating. Made with robust quality materials in stainless steel, to note that unfortunately the wall light is **Not suitable for seafont areas as it is not marine grade.**
