

Wall Light ZLC380

Long Life Lamp Company

External Wall Lantern

Mains Powered

Great modern wall light with aesthetics, not only will the lantern give you light from a 360 degree angle for maximum illumination it's also visually appealing. Black metal finish. The light shade is made of polycarbonate not glass so is more durable incase of damage for example cracks, stonechips etc. Please **do not** jet wash this lamp fixture. Particular design spans the gap between past and present.

- Non Marine Grade (not suitable for sea fronts)
- Suitable For LED bulbs ONLY

Technical Details
please see below

- IP44
- 220 - 240v

- E27 Lamp Holder

ZLC380

Modern Wall Lighting

Outdoors Lighting Collection, bringing a vast array of wall lights. Made with robust materials for durability. One of the specialties of our Lighting is in modern contemporary garden luminaires. If you wish to enhance the facade of your building or need ambient landscape lighting its made fit for purpose.

Fantastic Design

Modern design with some traditional features. Made from robust metal framework in a black finish. Clear diffusers which will allow light out at a 360 degree angle. The diffuser allows most of the light to filter through it to bring brightness with ambient glow. Modern, Subtle and Practical. Please note this is an upward style traditional styled lantern with some modern design.
