

BUILD YOUR OWN SAFE

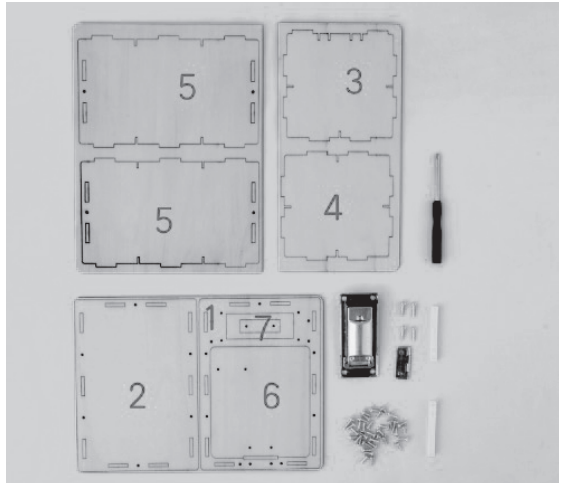

Please read this manual carefully before using this product and keep for future reference

What's included

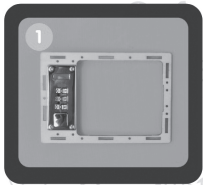

- Boards x 3
- Lock x 1
- 7cm screws x 32
- 10cm screws x 4
- Screwdriver x 1
- Lock accessories x 3

Precautions

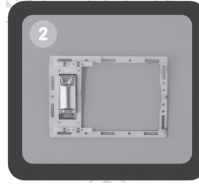

- Do not use excessive force during installation as this may cause damage to the parts.
- There are small parts with this product, extra care must be taken.
- Adult supervision is required at all times.

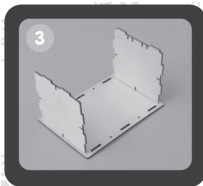

How to build

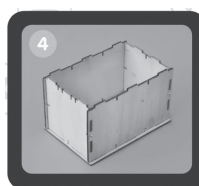

1. Use the long 7mm screws to install the lock on the board numbered 1 in above image.

2. Put the two reinforcing strips onto the back of the board. Then install the screws.

3. Install the 3rd and 4th boards (numbered 3 and 4 in above image) onto the 2nd board respectively.

4. Install the two number 5 boards (as shown in above images) onto the components assembled in the first step.

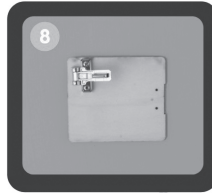

5. Use the 7mm screws to fix the assembled box together

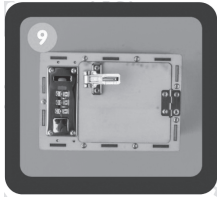

6. Install the door frame assembled in the first step on the box

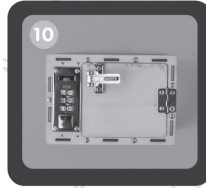

7. Fix the number 7 board in the way shown in above image

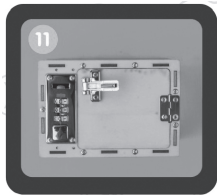

8. Use the 10mm screws to fix the lock and the number 7 board onto the front

9. Install the door panel with the 7mm screws

10. Push down the switch lock and remove the password protection strip. The default password for the lock is 000

11. To set a new password, push the lock switch up to lock and hold it. Put in your desired new password and release the lock to complete the password reset.

WARNING:
CHOKING HAZARD-Small parts.
