

INSTRUCTIONS

This manual is applicable to the following types of product: 94800.

SET UP

1. Twist the lock located underneath the car to unlock the battery cover.
This can be done by using a coin.
2. Once unlocked, open the battery cover and insert 3x AA batteries into the battery compartment. Please ensure the batteries are inserted according to the correct polarities.
3. Replace the battery cover and lock to secure.
4. Connect and screw the antenna into the remote control. Pull the tip of the antenna to extend the antenna fully.
5. Open the remote control's battery cover and insert 2x AA batteries into the battery compartment. Please ensure the batteries are inserted according to the correct polarity.
6. Replace the battery cover.
7. Turn the power switch on the car ON and begin to drive.

CAUTION

BATTERY ADVICE

- Requires 3x 'AA' batteries (car) and 2x 'AA' batteries (controller). Not Included.
- Batteries should only be replaced by an adult.
- Do not mix old and new batteries.
- Do not mix alkaline, standard (carbon-zinc) or rechargeable (nickel-cadmium) batteries.
- Do not re-charge non-rechargeable batteries.
- Rechargeable batteries are only to be charged under adult supervision.
- Rechargeable batteries are to be removed from the product before being charged.
- Ensure batteries are inserted with the correct polarity.
- Exhausted batteries should always be removed.
- The terminals should not be short circuited.
- Use a screwdriver to remove the screw from the battery cover. Replace battery cover and screw before use.

BATTERY DISPOSAL

Do not dispose of batteries in household waste or fires as batteries may explode. Dispose of spent batteries safely at your local authority or approved waste site.

FUNCTIONS

Function: Forwards, Reverse, Turn Left, Turn Right.

When the car starts to lose power, this will begin to affect the cars functions and performance. This is an indication that the battery power is low, at this point, please stop the car and replace with new batteries. Please note that your driving style may affect the car's running time and battery power.

A small diagram showing a battery symbol with a plus sign on top and a minus sign on the bottom, next to a side-view drawing of the car.

Radio interference could affect the car's function and performance. Interference can be caused by other remote control vehicles operating on the same frequency, electrical wires, large buildings and radios. Please ensure that you use the car away from any of these possible interferences; so as to get the best performance from the car.

A line drawing of the car on a track, with a radio tower and several buildings in the background, illustrating sources of radio interference.

Do not drive the car through water, mud, sand or snow. Only drive the car on smooth and clean surfaces.

A line drawing of the car driving through a puddle of mud and snow, with splashes around it.

Do not drive the car in direct heat, light or water sources. Always turn OFF the power to the remote control and car when not in use.

A line drawing of the car on a track, with a smiling sun wearing sunglasses above it, emitting wavy arrows representing heat or light towards the car.

Make sure the antenna is fully extended and is pointing directly towards the car. Do not drive the car too far away so that it stays within the remote control's range.

A line drawing of a remote control with its antenna extended and pointed towards the car on a track.

MAINTENANCE

- Use a slightly damp soft cloth to wipe clean any dirt or mud. Please do not use chemicals or anything other than water to clean the car.
- Do not expose the car to direct heat, water and light sources.
- Do not immerse the speaker in water.
- Please check the car and tyres regularly for any debris. If any debris is found, remove and clean. If the debris is not removed this could cause the motor to overheat and will damage the motor. It will also make steering harder to control.

Frequency bands: 2400MHz to 2483.5MHz
 Maximum Transmitting Power (EIRP) : Not more than 10mW.

Hereby, Gift Universe Management Ltd, declares this product is in compliance with the essential requirements and other relevant provisions of Directive 2014/53/EU. A copy of the original Declaration of Conformity can be obtained at the following address: Gift Universe, The Atrium, Curtis Road, Dorking Surrey RH4 1XA.

This product bears the selective sorting symbol for waste electrical and electronic equipment (WEEE). This means that this product must be handled pursuant to European Directive 2012/19/EU in order to be recycled or dismantled to minimize its impact on the environment. For further information, please contact your local or regional authorities. Electronic products not included in the selective sorting process are potentially dangerous for the environment and human health due to the presence of hazardous substances.
