⚠ Safety Warnings & Advice

The Vac Pack Go! Compressor is not a toy. Keep out of reach of children.

Choking hazard. Product contains small parts.

WARNING: Avoid danger of suffocation. Keep storage bags away from babies & children.

Not suitable for feather pillows and duvets.

DO NOT place food or liquid in the bags.

DO NOT use the bags to store any leather goods or fine clothing.

DO NOT place objects with feathers in the bags

In order to avoid damaging the pump, please ensure that all contents are completely dry before using.

DO NOT overfill the bags. This could damage the zipper and the bag.

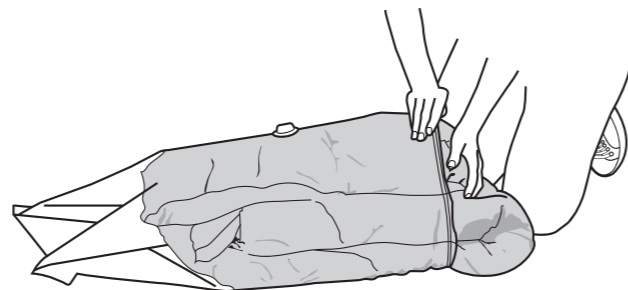

DO NOT bend the zipper as it may not seal if it is damaged.

Use a damp cloth to wipe clean and air dry.

Using Your Vac Pack Go!

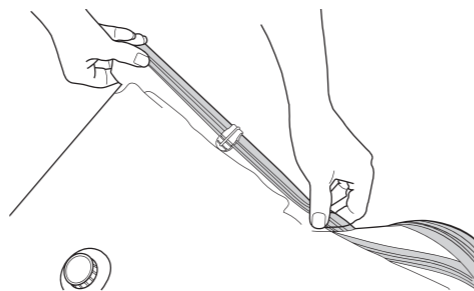

1. Prepare the clothes:

Put the clothes into vacuum bag and seal.

2. Sealing the bag:

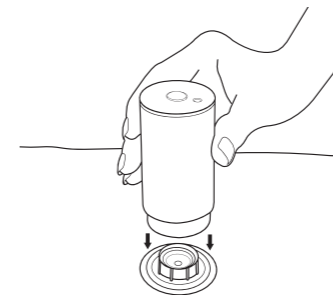

Hold the sealing strips together and slide the sealing clip along them.

Using Your Vac Pack Go!

3. Connect compressor to the vacuum bag:

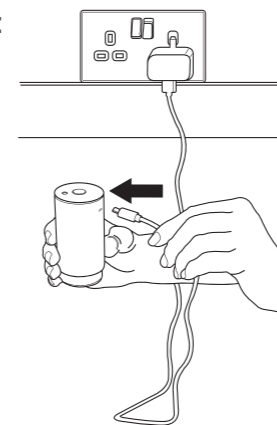

Remove the twist cap from the valve and then place the compressor over the valve, making sure to keep the base flat to maintain the best contact.

4. Connect power cable:

Connect the USB cable to a power supply and then to the compressor.

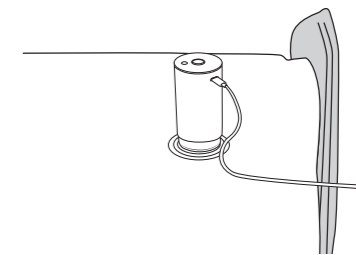

Note: This unit is not chargeable and will need to be connected to a power source.

Using Your Vac Pack Go!

5. Turning it on:

Simply press the button on the top to activate the compressor.

6. Turning it off:

Simply press the button on top to turn off the compressor once the desired compression has been achieved. Remove the compressor from the valve and then screw the cap back on to ensure the bag is fully sealed.

Note: Operational time may vary depending on the contents and desired amount you wish to compress the bag. This can range from approximately 2-10 minutes.
