

## Installation & use

- Do not apply excessive force during installation and cleaning or when replacing the mineral beads. This could cause damage to the shower head.
- Tighten the screw connections until hand-tight.
- Do not use any caustic or abrasive cleaning agents or cleaning pads to clean the product. These may damage the surface.

1. Screw the thread of the shower head (2) as far as it will go into the thread of the shower hose (Fig. 2).
2. Connect the shower hose to the water pipe.
3. Open the tap.

The shower head has three spray modes. To change the spray setting, press the rocker switch (1) on the side of the shower head.

## Guarantee

This product is unconditionally guaranteed for one year against all defects of workmanship and materials. This guarantee does not affect your statutory rights. If you have any problems or queries about this product please contact JML customer services.

### Items included:

- 1 x shower head with mineral beads
- 1 x operating instructions

Check the items supplied for completeness and the components for transport damage. If you find any damage, do not use the product but contact our customer service department. Remove any possible films, stickers or transport protection from the product.

## INTENDED USE

- This product is intended to be used as a shower head on shower hoses with a 1/2" IG internal thread.
- The product is designed for personal use only and is not intended for commercial applications.
- Use the product only for the intended purpose and as described in the operating instructions. Any other use is deemed to be improper.

## ⚠ Safety warnings & advice

- Keep the packaging material and mineral beads away from young children and animals. There is a danger of suffocation.
- Do not make any modification to the product.
- Before you use the product, make sure that it has been connected correctly.
- The product is NOT a toy. Supervise children to ensure that they do not play with the product. There is a danger of scalding.
- The product is not intended for use with power/electric showers due to the potential impact on flow rates. Please check with your manufacturer or user guide before use.

## Care & maintenance

Clean the shower head and descale the nozzles at least every three weeks or when the nozzles are clogged.

- Clean the shower head with standard cleaning agent and a damp cloth or sponge.
- To descale the nozzles, the Ring (3) on the Head (2) can be unscrewed and stainless steel plate can be removed (Fig. 1). When you reassemble, make sure that the stainless steel plate and the seal are inserted correctly.
- Due to the naturally occurring breakdown of the mineral beads used in this product, we recommend regularly inspecting and replacing the beads as needed to optimise performance.

## Product data

Model no.: BG-S-0320

Connection: 1/2"

Number of nozzles: 344

Materials: ABS, stainless steel (shower head). Tourmaline (grey beads), calcium sulphite (white beads), clay (red beads)

**Disposal:** Disposal of the packaging material in an environmentally friendly manner so that it can be recycled. Dispose of the product in an environmentally friendly manner as well.
