

## Care and Cleaning:

### **General Cleaning Instructions**

*To clean your brassware product we recommend using a soft cloth dampened with water and a mild washing up detergent or soap. Never use scouring powder, steel wool or a detergent that is abrasive, calcium-dissolving, contains alcohol or other harsh chemicals. Rinse with water and dry with a clean soft dry cloth.*

*To remove calcium deposits, use ordinary white vinegar diluted in water and rinse with plain water and drying with a soft cloth. Wipe away any standing water to avoid water spots.*
