

NOPE!® Insect Killer Smoke Bomb

Product Description

NOPE!® Insect Killer Smoke Bomb is a ready-to-use insect smoke generator for the control of crawling insects, house flies and mosquitoes. It is for indoor use only, in areas not subject to wet cleaning (e.g. kitchens and bathrooms), such as lofts, garages and other indoor storage areas.

Benefits

- Fast knockdown on flying insects and mosquitoes
- 12 week residual action^[1]
- Broad spectrum of activity – targets flies, mosquitoes and crawling insects.

Properties

Size(s) & Packaging	4.7 g plastic canisters 14 g plastic canisters
Coverage	<p>4.7 g smoke bomb: 1 generator per 152 m³ (flies and mosquitoes) 1 generator per 38 m³ (fleas and bedbugs) 1 generator per 9 m³ (ants and cockroaches)</p> <p>14 g smoke bomb: 1 generator per 452 m³ (flies and mosquitoes) 1 generator per 113 m³ (fleas and bedbugs) 1 generator per 28 m³ (ants and cockroaches)</p>
Storage	Store in original sealed container. Keep out of reach of children.
HSE Reg. No.	9902
Active Ingredient(s)	Permethrin (13.5 %w/w)
Shelf Life	3 years

Application Information

Preparation

Read the label before treatment. Prior to the use of **NOPE!® Insect Killer Smoke Bomb** thoroughly clean and vacuum the area to be treated. Bag up the waste and immediately dispose of it outside.

Application

For best results, fumigate using **NOPE!® Insect Killer Smoke Bomb** in the late afternoon and leave the building for a minimum period of 2 hours. Warning – there may be a slight smell to fabrics following use.

- Consider how many fumers you need for the room to be treated. **NOPE!® Insect Killer Smoke Bomb** can be used against flies, mosquitoes, cockroaches or crawling insects. The number of fumers required is outlined in the application rate table. Heavy infestations may require more than one application

Pest	Small Room (4 × 3 m; 30 m ³) ^[2]	Medium Room (4 × 6 m; 60 m ³) ^[2]	Large Room (Up to 6 × 8 m; 120 m ³) ^[2]
House flies and mosquitoes	1 × 4.7 g canister 1 × 14 g canister	1 × 4.7 g canister 1 × 14 g canister	1 × 4.7 g canister 1 × 14 g canister
Fleas and bedbugs	1 × 4.7 g canister 1 × 14 g canister	2 × 4.7 g canisters 1 × 14 g canister	3 × 4.7 g canisters 1 × 14 g canister
Ants and cockroaches	4 × 4.7 g canisters 1 × 14 g canister	7 × 4.7 g canisters 2 × 14 g canisters	13 × 4.7 g canisters 4 × 14 g canisters

- Clear people and animals including fish from the room before use.
- Place canister(s) spaced out on the floor surface on a heat resistant surface, e.g. a plate on top of a sheet of aluminium foil 300 × 300 cm. NOT a bucket or other enclosed receptacle.

^[1] Re-treat after 3 weeks while problems persist

^[2] Assumed ceiling height of 2.5 m.

IMPORTANT: CAUTION MUST BE TAKEN WHEN LIGHTING THE PRODUCT.

- Make the area to be fumigated as smoke tight as possible by closing all the windows, etc.
- Open canister(s) and light the fuse on the canister furthest from your exit point first, then light the next fumer and move towards your exit point. Close the door on exit, it is not necessary to seal the door with tape.
- Leave for at least 2 hours, or one hour per 1.5 m ceiling height, but preferably overnight and then ventilate the room thoroughly for at least 30 minutes.
- If necessary, repeat the application after 3 days.

NOPE!® Insect Killer Smoke Bomb acts fast on flying insects. However, crawling insects are knocked down by the residual action. The residual action will last 12 weeks, but it is recommended to carry out retreatment after 3 weeks while the infestation persists.

Following the use of **NOPE!® Insect Killer Smoke Bomb**, use soap and water to clean down any food contact surfaces. Vacuum and wet clean other surfaces, but it is recommended to wait two weeks or until the infestation has ceased before doing this.

Other Information

Apply only in areas that are not liable to submersion or becoming wet, i.e. protected from rain, floods and cleaning water. Do not contaminate foodstuffs, eating utensils or food contact surfaces. Keep away from food, drink and animal foodstuffs. For use only in loft and garage spaces and other similar indoor storage areas not subject to wet cleaning. Wash hands and exposed skin before meals and after use. Cover all water storage tanks before application. All bats are protected under the Wildlife and Countryside Act 1981. Before treating any structure used by bats, consult Natural England, Scottish Natural Heritage or The Countryside Council for Wales. Hazardous to bees. Exclude all persons and animals during treatment. Ventilate treated areas thoroughly when smoke has cleared before re-entry. Do not contaminate waterbodies or watercourses with chemicals or used container. The active substance in the product is known to develop resistance in some organisms (i.e. the product becomes less effective if used frequently). The product should be used with care and in accordance with the instructions for use, in order to limit the development of resistance in other organisms.

For full health and safety information consult the safety datasheet (SDS). This product is approved under the Control of Pesticides Regulations 1986 (as amended) for use as directed. HSE No. 9902. Use pesticides safely. Always read the label.
