

# Cordless Strimmer Quickstart Guide

TTCGT18-3

## Fitting the Guard

Attach the guard to the strimmer head, align the guard so it slides into the slots on the head. Now secure the guard with the screw (this screw can be found in the plastic bag with blades).

## Adjusting the Height

Unscrew the height adjustment knob in the direction indicated to unlock. Adjust the aluminium tube to the desired length and retighten the locking knob.

## Charging the Battery

Connect the mains charger to the charger base, now plug into a power point. A green light will illuminate on the charger base.

## Charging the Battery

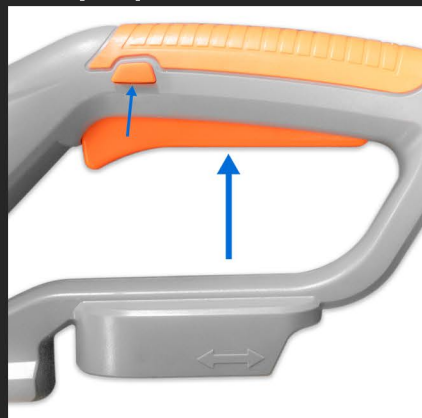

Slide the charger base onto the battery to start the charging of the battery. The green light will go out and be replaced with a red light to indicate charging.

## Charging the Battery

When the battery is fully charged the red light will go out and the green light will illuminate to indicate charging is complete.

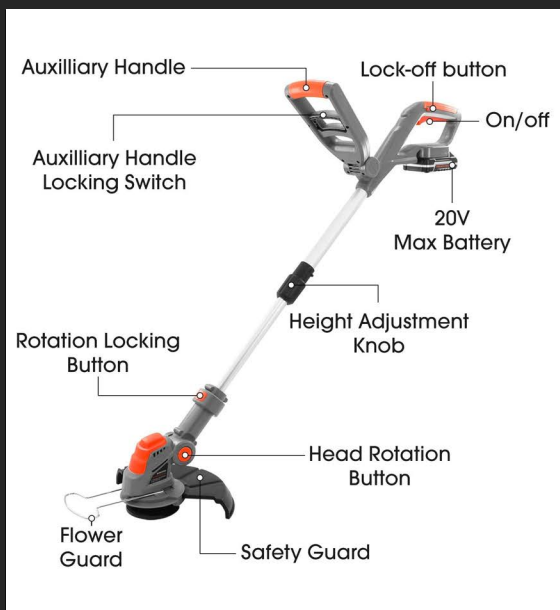

## Safety On/Off Switch

The trigger switch is locked off to prevent accidental starting. Press the lock button and then pull the trigger switch to start the strimmer. Once the machine is operating the lock button can be released.
