Assembly Time	People Required
No assembly required.	1 person

## Details

## Technical Data

Material:	UV-resistant PE + Metal
Weight:	520g
Water Resistance:	IP54
Power:	5 Watts, max
Brightness:	50-500 Lumens
Colour Temp:	3000k
Charge:	Charging 5v/1A
Battery:	3.7v 4000mAh Li-ion battery
Charge Time:	3-6 hours, depending on charging current (1A - 3A)
Working Time:	9 - 72 hours, depending on brightness
Ambient Temp:	-24C to +55C

## Before you start!

---

- **Retain these instructions** for future reference.
- When you are ready to start, **make sure that you have the right tools, plenty of space** and a **clean, dry area** for assembly.
- Unwrap all packaging materials and **place the components on top of the carton box** or on a **clean surface** to prevent it from scratching.
- Check the pack and **make sure you have all the parts listed**.
- Ensure that this product is **fully assembled** as illustrated **before use**.

## Warnings

---

- This product should only be used on a **firm, level surface**.
- **Do not** use this product if parts are **missing, damaged** or **worn**.
- Children under the age of 6 **should not use this product** without **adult supervision**.
- If the lamp is **damaged** in any way, **discontinue use** of the lamp immediately.
- **Never** open the light or attempt to repair it yourself.

## Warranty

---

This product has a **12 month manufacturing warranty**.

- The warranty does not cover any accidental damage/neglect or general wear and tear.
- No liability will be accepted for damage or injury caused by incorrectly installed or assembled products.

## Set-Up Instructions

---

### **\*\*Note\*\***

Please fully charge the product before using it for the first time.

### **Touch Controls:**

- ON/OFF: Short press to turn on/off.
- Brightness: Long press to adjust brightness.

### **Charging:**

- Please fully charge the product before using it for the first time
- Please use the Type-C port to charge (charging voltage/current DC5V/(1A-3A).
- Fully charging takes a minimum of 3 hours to a maximum of 6 hours (actual charging time varies depending on the charger input current).
- While charging, the green light flashes.
- When fully charged, the green light will stay on.

**\*\*If the table lamp keeps flashes for a few seconds before going out, this is a warning that the battery is exhausted. Please charge the lamp as soon as possible\*\***

### **Power Bank Output**

The table lamp can also be used as a mobile power supply, equipped with a USB-A port (output voltage/current DC5V/1A). This will allow you to charge mobile phones, tablets or other small electronic devices.

While charging, the blue light will stay on.

## Care & Maintenance

---

- Do not use solvent based cleaners or detergents as they can bleach or damage the product.
- Never use a pressure hose or washer to clean the product.
- Never use scourers, abrasives or chemical cleaners as these may damage the paint, leaving the surface open to corrosion.
- Store the product in a cool, dry place. Before storage ensure that the product is clean and dry.
- The metal base is manufactured using powder coated steel. When steel is exposed to air and moisture it will rust. Any scratches on the paintwork should be touched up immediately with metal paint, otherwise corrosion may occur.
- Please keep away from sources of extreme heat and naked flames.

**\*\*Please note that the light source is not replaceable\*\***

**PLEASE RETAIN THIS LEAFLET  
FOR FUTURE REFERENCE**
