

## IntelRoll INT400 – Half Cassette Electric Retractable Awning

Remote-Controlled Convenience | Durable Construction | Modern Design

Upgrade your outdoor space with the IntelRoll INT400 Half Cassette Electric Awning—a perfect balance of premium protection, effortless operation, and affordability. This motorised awning provides superior coverage compared to a no-cassette awning, as the half cassette partially encloses the fabric when retracted, offering enhanced protection from dust, debris, and weather conditions. Unlike full cassette awnings, it comes at a more cost-effective price while still delivering outstanding performance.

### Why Choose the IntelRoll INT400 Electric Half Cassette Awning?

- ✓ Electric operation – Enjoy seamless extension and retraction with the touch of a button using the remote control.
- ✓ Superior protection – The half cassette helps shield the fabric, keeping it clean and extending its lifespan.
- ✓ Heavy-duty construction – Built with a reinforced aluminium frame and double steel cables for maximum durability.
- ✓ Flexible shading – Adjust the awning angle to suit seasonal sun positions and personal preference.
- ✓ Cost-effective alternative – A more affordable option than full cassette awnings, yet offering excellent protection.

### Premium Frame & Build Details:

- ✓ Frame Colour: Grey, powder-coated for long-lasting durability
- ✓ Torsion Bar: Heavy-duty 40x40mm steel frame for enhanced strength
- ✓ Front Bar: 88mm x 65mm aluminium for extra stability
- ✓ Arms: Sturdy aluminium with dual steel cables for smooth, secure movement
- ✓ Roller Tube: 70mm diameter aluminium for increased durability
- ✓ Certification: TUV & GS Approved for European Safety Standards

### High-Quality Fabric for Long-Lasting Protection:

- ✓ Material: PU-coated 300g/m<sup>2</sup> Polyester – Water-resistant & UV protective
- ✓ Water Resistance: Rated at 17L/m<sup>2</sup> – Offers protection from light rain

- ✓ Wind Resistance: Rated up to 70N/m<sup>2</sup> from every angle
- ✓ Shade Protection: Designed to reduce heat and glare while protecting outdoor furniture

### **Advanced Features:**

- ✓ Motorised Operation – Effortlessly extend and retract the awning with a remote control
- ✓ Perfect for Patios, Balconies, Gardens & Commercial Use
- ✓ Heavy-Duty Stainless Aluminium Frame – Rust-resistant for long-term durability
- ✓ Adjustable Pitch Control – Customize the slope angle for maximum shade throughout the day
- ✓ Retractable Design – Open as much or as little as needed up to the maximum projection
- ✓ Easy to Clean – Wipe down with a sponge and cloth for effortless maintenance
- ✓ Includes Mounting Brackets & Accessories – Ready for installation
- ✓ One-Year Manufacturer's Warranty on all parts (excluding fabric)

### **Important Installation & Delivery Information:**

Wall Mounting: Must be installed on a solid brick or concrete wall by professional installers.

Electrical Connection: The motor is positioned on the left-hand side when facing the wall, with a 120cm power cable. A standard outdoor UK socket is required.

Cable Extension Option: If the socket is further away, our third-party installers can extend the cable for £75, or an electrician can install an outdoor socket.

### **Delivery Restrictions:**

Additional shipping costs apply for UK Highlands, Islands, and Northern Ireland.
