

Introducing the **Liquida AGV100BL**, a cutting-edge 1.0 bowl black kitchen sink with a sleek matte finish that not only adds a touch of modernity but also guarantees exceptional durability. Crafted from a next-gen BIO COMPOSITE, this sink sets itself apart from traditional materials like granite or quartz.

Unlike pouring and setting, the manufacturer compresses this material, resulting in a sink that is stronger than both granite and stainless steel, with reduced susceptibility to cracking or fading.

Bio-composite material is durable and saves 30% to 50% in CO2 emissions over its lifecycle compared than steel!

BIO. DURABLE. ROBUST

- 30% organic materials, mostly bio-sourced
- 40% mineral fillers
- 20% long glass fibers
- 10% additives and pigments

New-generation BIO composite material.

Bio-sourced components based on indirect food resources with full traceability of components throughout the entire process

Vegetable oils, mainly from beetroot and straw.

ISCC-certified materials reduce the carbon footprint of products

Embrace the advantages of this advanced manufacturing technique, as the Liquida AGV100BL promises resilience and longevity. The striking black finish perfectly complements contemporary kitchens, making it an ideal choice for those seeking both style and durability in their kitchen fixtures.

5 Years Guarantee

- ✓ High impact resistance up to 470 MPa
- ✓ up to 5 times more impact resistant than a composite granite sink!
- ✓ Temperature resistant up to 250 ° C
- ✓ Abrasion-proof
- ✓ Stain resistant
- ✓ Hydrolysis proof
- ✓ Easy cleaning

Technical Details

- Temperature resistance : 250°C
- Mechanical resistance : up to 5 times more shock resistant than granite !

- Stain resistance : all stubborn stains (incl. coffee, red wine, curry paste, mustard, ketchup, balsamic vinegar, turmeric...), can be cleaned with warm soapy water and a soft damp cloth.
- Limescale can be removed with the help of white vinegar
- Scratches : as the material is coloured in the mass the scratches can be easily removed with the help of paraffin or simple food oil (olive, sunflower oil).
- Non-porous material – enables easy cleaning and hygiene, safe to come in contact with food
- High UV resistance – the sink can be installed under the window
- The sinks comply with the current european standards EN13310 :2015 – durability & clean-ability norms
- 90mm stainless steel basket waste with overflow (included)
- Space saving siphon included
- Complete set of work pipe included
- Easy drilling for tap install
- Fixing brackets supplied
- Tap holes: none (pre-marked on the underside of the sink)
- Minimum cabinet size (mm): 600
- Sink dimensions (mm): W1000 x D500 x H210
- Bowl Dimensions (mm): W483 x D419 x H210
- Cut Out Dimensions (mm): W976 X D480
- Installation type: inset
- Orientation: reversible
- Net weight : 5.3 kg

Included accessories

- Fitting clips
- 1x 90mm basket strainer waste, Overflow and fittings

* The 5 year manufacturers guarantee covers the material and workmanship
It does not cover accidental damage or misuse

Welcome the Liquida KPO11MB, a sleek matt black swan neck kitchen mixer tap designed to infuse a contemporary and modern flair into your kitchen space. Elevate the aesthetics with its stylish appearance, adding a touch of sophistication to any culinary setting. The matt black finish not only imparts a modern and chic look but also offers versatility, allowing you to effortlessly coordinate it with various types of kitchen sinks. Experience a blend of style and functionality with the built-in features of a **pull-out spray** and **swivel spout**, making the Liquida KPO11MB the perfect choice for a fashionable and practical kitchen sink mixer.

2 Years Guarantee

Construction Material:

- S/S 304

Installation type:

- Sink or deck Mounted

Colour / Finish:

- Matt black

Dimensions:

- Height (mm): 398
- Width (mm): 273
- Length / Depth (mm): 54

Tap Tails Included:

- Yes

Style:

- Contemporary

Minimum Working Pressure:

- 1

Maximum Working Pressure:

- 5

Cartridge Type:

- 35mm

Flow Type:

- Single Flow

Number of Tap Holes Required:

- 1

Handle Type:

- Lever

Swivel Spout:

- Yes

Inlet Connection:

- 1/2" BSP Flexible Tails

Tap Hole Diameter:

- 35mm

Supply:

- Suitable for most plumbing systems, preferably balanced
