

POINTING MADE EASY

A made easier brand

TECHNICAL DATASHEET

Features and Benefits

- ✓ Workability for up to 5 working days
- ✓ Initial set time 45mins
- ✓ Euro class B fire regulated
- ✓ Joint width 5mm to 50mm
- ✓ Just mix and go.
- ✓ Available in over 25 colours
- ✓ Reuseable if dropped on the floor
- ✓ Easy to apply – NO CEMENT

Application

Pointing Made Easy is an easy to apply non cementitious mortar that complies to the strict demands of the Euro Class B fire regulations. Pointing Made Easy has been designed for pointing brick slips both internally and externally. Shrinkage compensated, Eco Friendly, fast & easy to apply, therefore minimising downtime and speeding up project completion.

Technical

Pointing Made Easy is a highly engineered resin and graded filler pointing system. Simply mix the resin and filler together then apply by hand or with a traditional hawk and trowel. Pointing Made Easy is suitable for joint widths 5mm-50mm.

Preparation

All joints must be free from any loose debris and clean, The mortar must be mixed so that no resin is left visible.

Mixing

Empty the filler (sand) into a separate vessel then empty the contents of the resin into the bottom of your mixing tub. Add approx. half the sand and mix for up to 10 seconds, add the remaining sand and mix more thoroughly for 30 seconds (best results achieved with a mechanical mixing tool such as paddle or drill and whisk. Mix is complete when there is no visible resin, it should be completely mixed in.

If applying by hand leave 10-15mins before applying for best results then simply press pointing made easy into the joint.

If applying with trowel and Hawk simply place Pointing made easy on the hawk and apply using trowel. Brush the access sand off the face of the brick with a semi rough brush (the more flat the surface of the brick the easier this process will be) Please see QR code video link on the side of tub for instructions.

because life is busy enough.

Product and technical data

Unit/Packaging	10kg & 25kg box or tub
Storage	Store in a cool, dry and frost free area at temperatures between 5°C and 30°C
Coverage	10kg = 2.2m ² – 25kg = 5.2m ²
Workability	Up to 5 working days (if product in tub has lid secure after mix)
Shelf Life	8 months from the date of manufacture printed on the bag unopened in the above
Shrinkage	0.01%
Colour	Black, White, Grey, Buff (over 20 others colours available)
Set time	45-60mins initial set
Compressive Strength	4MPa (4 N/mm ²)

*Depending on temperatures- test carried out at 20o C. Cool temperatures retard, warm temperatures accelerate product performance. Unlike most raw material, colour variation never occurs. Please note that this does not affect the consistency or characteristics of the enclosed product.

Placing

For hand application leave 10-15mins before applying for best results then simply press pointing made easy into the joint. If applying with trowel and Hawk simply place Pointing made easy on the hawk and apply using trowel.

Brush the access mortar off the face of the brick with a semi rough brush (the more flat the surface of the brick the easier this process will be)

Note that the product will need to be compacted into the joint, for best result strike off.

Please see QR code video link on the side of tub for instructions.

Finishing

Pointing Made Easy should be brushed off the surface of the brick before the mortar is set. Ensure that the mortar is compacted into the joint with a pointing tool, or this can be done by hand. In optimum temperature the product will set within 45mins. Pointing Made Easy will stay viable and usable for up to 5 days if the lid is securely fastened after entail mix.

Precautions

Note that Pointing Made Easy is non-hazardous but application using gloves is recommended. Ensure that all tools are cleaned after use and access material is removed before it sets.

Quality Assurance

All products are manufactured in a plant whose quality management system is certified / registered as being in conformity with BS EN ISO 9001, ISO 14001 and ISO 45001 Our products are guaranteed against defective materials and manufacture and will be replaced or money refunded if the goods do not comply with our promotional literature. We cannot however accept responsibility arising from the application or use of our products because we have no direct or continuous control over where and how products are used. All products are sold subject to our conditions of sales, copies of which may be obtained upon request.
