To ensure that your call is handled quickly and efficiently, please ensure you have the model number (FIR063) and any other relevant information regarding your product to hand at the time of your call. Please retain these instructions for future use.

FIR063 RADIATOR FAN

Operating Instructions

The Radiator Fan draws heat from the radiator, heating the room more quickly and evenly. This can reduce the energy usage in your house. With built-in rechargeable battery and magnet, allowing for convenient and flexible adjustment of position.

BEFORE USING THIS PRODUCT: PLEASE READ, UNDERSTAND AND FOLLOW THESE INSTRUCTIONS.

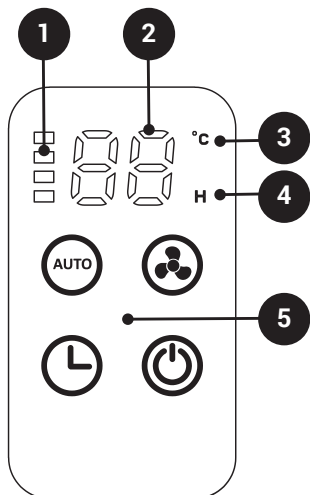

PACKAGE CONTENTS
Radiator Fan x 1
USB-C Charging Cable x 1
User Manual x 1

CAUTION!
Before installation, please make sure the top of the steel radiator will be suitable for stable placement and the temperature will not exceed 80°C, and will allow airflow through the fan.

DISPLAY FEATURES

- Battery level indicator uses four segments: 25%, 50%, 75%, 100%. During charging, the next segment flashes. When the battery level drops below 5%, the last segment indicator will flash to remind the user to recharge.
- Real-time display of fan temperature and Fan speed setting 1, 2 or 3.
- The temperature unit (°C) and automatic function standby status indicator light.
- Run time setting (Hours) and remaining time left to run.
- Function buttons.

OPERATION

ON/OFF

Press once to turn the fan on/off. After the product conducts a self-check, it will display "F1", and the product will enter the working state, operating at speed 1. After 1 second, it will switch to display the monitored temperature, and the energy bar on the left will show the remaining battery power.

SPEED CONTROL

After the product is turned on, it is set to speed 1 by default. Press the button once, and "F2" will be displayed, and the fan setting is speed 2. Press it again, "F3" will be shown, and the fan setting is speed 3. Press it one more time, "F1" will be displayed, and this cycle repeats.

AUTOMATIC OPERATION MODE

Press the button once, and the product will enter the automatic temperature detection operation mode.

Temperature Range	Fan speed	Remarks
<28°C	None	The product is in standby mode, and the "°C" symbol light flashes every few seconds as a reminder.
28°C~45°C	1	Briefly displays A1
46°C~54°C	2	Briefly displays A2
>54°C	3	Briefly displays A3

Note:

- When the detected temperature drops below 28°C, it will display "A0", and the product will stop working. The indicator light of the "°C" symbol in the upper right corner will flash to indicate that the product is in standby mode.
- When the detected temperature reaches 33°C, the product will wake up and enter the working mode, however the fan will continue operate in automatic mode until the radiator temperature falls to 28°C. In the standby mode, you can press the Fan speed button to switch to manual mode of operation.

TIMING MODE

Press the button once to enter the timing setting function. The "H" symbol indicator light will illuminate. The available timing options are 2, 4, 6, 8, 10, and 12 hours. Press the button again, it will return to 0, cancelling the timing function. When setting the timing, the setting will be automatically be confirmed after 3 seconds. Select the fan speed to your choice.

CHARGING PORT

Use the provided USB-C Cable charging the radiator fan. For faster charging use a 5V/2A adapter, otherwise the charging time will take longer. The fan can run and charge at the same time, if run during charging the fan speed may be reduced.

PRODUCT PARAMETERS

Input Voltage DC 5 V

Rating Power 3 W

Noise Level $38 \pm 5 \text{ dB}$

Battery Capacity 5200 mAh (Working Temperature -10°C to 80°C)

Storage Temperature 10-30°C

Fan Speed 1= Low, 2= Medium, 3= High

Working Time 6 to 16 hours depending on fan speed.

Product Dimension W414 × D107 × H85mm

Net Weight 700g

RECOMMENDATIONS

- For best results place on a flat topped radiator with grill to allow good airflow through the unit
- Ensure the unit is stable and safely located
- Works best where the radiator fan can gently blow warmed air over a large area

SAFETY

- Do not put your fingers or any other items into the fan, especially when it's on, to avoid hurting yourself or damaging the fan.
- Avoid using the product in hot (higher than 70°C) or damp places, and keep it away from direct sunlight.
- Ensure fan is safely placed on the surface to prevent falling off.
- Do not dismantle or modify the product, this will invalidate the guarantee.
- Ensure the fan is turned off to avoid fire when unattended.
- Do not block the vents
- Never leave children alone with packaging material and the fan. This product is not a toy.
- Never use the product outdoors. The product is intended for indoor use only.
- Never touch the product or power cable with wet hands.
- Keep the product away from moisture. Take care when cleaning the product or radiator to which it is attached. Make sure no water enters the product through the fans. Do not clean the product with chemical liquids or detergents, use a soft brush to keep vents clear and a damp cloth to wipe the cover.
- Check all components (including cables) for any damage before using the product. Immediately remove the power cable in the event of visible damage.
- If a strong odour or overheating occurs place unit outside on non-combustible surface.

DISPOSAL

Electrical equipment and batteries should never be disposed of with general household waste. They must be separately collected for proper disposal.

- The symbol on the product reminds you of the need to dispose of the product correctly at the end of its life. Please dispose of at your local recycling centre.

WARRANTY

This product is guaranteed by Accessory Outlet for a period of 1 year from the date of purchase under a Limited Warranty Agreement. During this period if there is a defect due to faulty materials or workmanship, the retailer from whom you purchased it will replace it with the same or a similar model on production of your purchase receipt or proof of purchase. This guarantee does not cover defects arising from accidental damage, misuse or wear and tear, and is available only to the original purchaser of the product. This does not affect your statutory rights.
