

Healthy Material: APPASO sink tap is made of SUS 304 stainless steel, resisting corrosion and rust. High quality cartridge has passed 500,000 cycle times to ensure long-lasting durability

Multifunctional Modes: This mixer tap has 3 water outlet modes to meet different kitchen needs. Upgraded Waterfall Mode is a very powerful mode which is ideal for cleaning large areas

Flexible Operation: Equipped with a 360°rotating spout and a retractable PEX hose, the kitchen sink tap allows for a wider range of cleaning and more flexible use

Easy Assembly: Designed for simplicity, the pull out tap is easy to assemble, requiring no specialized skills for a hassle-free setup. It is suitable for most high-pressure kitchen systems that require a hole size of 32-35 mm and a universal G1/2 nut

Noise-Free: Our tap mixer is equipped with ABS nozzle, soft, quite and no splashing. The single handle control allows for easy adjustment of water temperature, bringing you the convenience and comfort you need in your daily life
