- Maritime robust design • Built-in parallel connection
- Durable material that is well-suited for harsh weather • 15-year guarantee on surface deterioration

Polperro was inspired by harsh coastal areas with roaring seas and tall waves. The maritime design makes Polperro a decorative and classic wall lamp that fits beautifully by the front door, the garage or on the fence. Furthermore, the Polperro can be connected in parallel, making the lamp extremely functional.

The lamp is made of brass which has been given a special nickel treatment, where the nickel surface has been transferred to the lamp mechanically. This process makes Polperro extremely durable and resistant to aggressive weather environments.
