Slim Nordic design and innovative technology are combined in the most compelling way in the Clyde series. Clyde has a built-in Moodmaker™ function, which allows you to adjust the light in three steps according to needs and situation from your regular wall switch.

Clyde is a small wall lamp with various functionalities. The Moodmaker™ function makes the lamp applicable next to the bed or sofa, as it provides good reading light and a cosy light before bedtime. The power switch is placed on the base, which makes it easy to turn the light on and off.
