

Experience precision, power, and reliability with the GJ-360 Premium gas torch burner, designed for both home and outdoor use. This powerful torch lighter delivers a controlled, high-temperature flame up to 1300°C, making it ideal as a chef blow torch, kitchen blow torch, or blowtorch for cooking. Whether you're caramelising a perfect crème brûlée, searing raw meat, or using it as a bbq lighter or firelighters starter for wood burners, this versatile tool performs with ease. Its compact, small blow torch design offers excellent control while still delivering professional results.

Built for performance and durability, this heavy duty gas blowtorch features a one-click piezo ignition and adjustable flame control for precise operation. The ergonomic grip and hands-free function ensure comfort during extended use, whether you're working in the kitchen, workshop, or outdoors. Designed as a dependable wind proof lighter / flame thrower style gas torch, it performs reliably in tougher conditions—perfect for camping, BBQs, or use as a portable gas stove lighter or hob lighter. Compatible with standard butane gas cylinder / gas lighter refill canister, it's a practical and reusable solution.

Safety and versatility are at the core of this premium tool. Equipped with a secure safety lock, this multi-purpose kitchen gadget is suitable for everything from candle lighting, pipe lighter use, and smoking gun preparation, to crafts and precision tasks like an egg candling torch or heat gun for crafts. Its sleek metal-style design and professional finish make it a great option for cooking gifts, baking gifts, or chef-grade kitchen equipment. Whether you're a home cook, outdoor enthusiast, or professional, this chefs blow torch UK delivers the performance, control, and convenience you need.
