

GENERAL MAINTENANCE

To maintain the windows' appearance and longevity, follow these general care instructions:

For routine cleaning, use a soft cloth with warm soapy water.

Avoid using glass cleaner or bathroom cleaner on the frames, as it can damage them.

ONGOING MAINTENANCE

Regular upkeep is recommended to ensure the frames remain in optimal condition. If needed, consider re-coating the frames with stain, oil, or paint. If you decide to proceed with re-coating, adhere to the following steps:

Start by cleaning the frames using a soft cloth and a solution of soapy water. Allow them to thoroughly dry.

Employ fine abrasive paper to gently rub down the frames and remove any accumulated grease.

Wipe the frames with a damp cloth to eliminate dust and debris. Once again, ensure they are completely dry.

Apply the paint or stain of your choice, following the manufacturer's specifications for the application.

By consistently performing these maintenance steps, you can uphold the quality and appearance of your windows over time.
